Monitor your drivers’ hours of service logs and DVIRs.
Receive alerts to prevent violations.

Fleet Tracking
Track your vehicles in real time and view their location history.

IFTA reporting
Automatic IFTA state mileage reporting saves you time and money.

Access Permissions
Manage permissions for fleet managers, compliance officers, drivers, accountants, brokers and customers.
Affordable and easy to install logging device. Simply plug ELD into a vehicle ECM port and start recording driving hours and miles automatically.

Easy to use app for managing hours of service logs. It connects to ELD via bluetooth and displays recorded driving time to a driver.

A1 ELD & App work great with most Android 3G/4G tablets and smartphones. Use your own or purchase devices and data plans from us.
Install & Connect ELD

!A1 ELDs are installed within minutes

✅ Locate ECM (diagnostic) port
Locate ECM (diagnostic) port inside of your vehicle. Look for 9-pin or 6-pin circular ports in heavy duty vehicles. Look for OBDII port in light/medium duty vehicles.

✅ Install ELD
Simply plug the provided cable into a vehicle ECM (diagnostic) and attach the other end to the ELD device. The dual fastener is provided for dash mounting.

✅ Log into !A1 ELD Logbook App
Log into !A1 Logbook App on your tablet/smartphone with a username and password created during a sign up process or provided by a fleet manager.

✅ Connect ELD
Select a vehicle from a list of available vehicles and your device will attempt to connect to ELD via Bluetooth. Green Bluetooth indicator at the top right corner means you are ready to start using ELD.
Visual notifications and sound warnings help you to avoid hours of service violations and stay compliant.

Warnings

Available driving hours, required breaks, on-duty limits and required off-duty time are calculated automatically.

Hours

Visual notifications and sound warnings help you to avoid hours of service violations and stay compliant.

Driving with ELD

- Once ELD connected, your driving time will be captured automatically.
- Once your vehicle is moving at 5mph or more, your duty status is switched to Driving.
- Your logs and others features are not available while in Driving mode due to safety reasons.
- Once your vehicle is stopped, you may change your duty status by tapping on the status circle. The app will remind you to make a selection in 5 minutes. If no selection is made, your duty status will be switched to On Duty.
Duty Status

Set duty status with just two-clicks. Status is updated automatically when driving starts or stops. Easy-to-use interface allows drivers to spend less time doing paperwork and more time driving. I'A1 ELD simplifies training and prevents log errors.

“Managing Hours of Service is much easier with I'A1 ELD”

Current Status

Current duty status is always displayed on Status page inside of status circle along with available or reset hours.

Change Status

Tap the status circle, select your current status, add a note if necessary (i.e. pre-trip inspection) and press “Update” button.

Personal/Yard

Personal Use Off-duty and Yard Move On-Duty statuses must be configured and allowed by a fleet manager.
Logs
Managing logs has never been easier

HOS 247 utilizes growing T-Mobile 3G/4G/LTE network to provide reliable and affordable ELD connectivity.

ELD tablets support 3G/4G/LTE connectivity and work great outside of major cities unlike most consumer tablets with 4G/LTE only connectivity.

HOS247 Logbook App, TomTom trucking navigation and routing. All in one industrial grade device connected to 3G/4G/LTE network.
