Send Messages

Select Free form or a pre-programed message
If free form: Enter message and submit
If canned: Touch SEND
Find a day’s log that needs to be edited using the previous instructions to view your log.
Touch one of the duty status bubbles to select the status that you would like to edit.

Note: You cannot edit the blue/Driving line. You can edit the green/Off Duty, yellow/Sleeper, and red/On Duty Not Driving lines.
Editing Your Log

Set a Start Time
Editing Your Log

Set an End Time
Double-check your log edits and confirm the new (edited) log to the old (original) log.
Editing Your Log

Enter your comments into the computer. (aka annotations)
Your log has now been edited and the process is complete.
Select **HOS** on the home screen
Select **Sync HOS**

**Why Sync HOS?**

If a log edit has been performed since your work day began, the most up-to-date log will be reflected to the inspector.
Wait up to 5 seconds
Roadside Inspection Procedure

Select **Show Data** for details
Select **Show Graph** to return
Roadside Inspection Procedure

Swipe left/right to browse graph
Adjust Screen Brightness

Swipe down from the top edge of the tablet and select **Brightness**
Adjust Screen Brightness

Swipe left or right to adjust the brightness
Select **System Bio**
Check System Status

Review System Status and send a Test Packet
When HOS hours are running low an audio alert will warn you.

When HOS hours are in violation, the hours gauge will display “VIOLATION” in red text, and an audio alert will warn you.
