Installing the Hardware in your vehicle

- 1 Next, please locate the engine diagnostic port. Generally this port is found in 1 of 4 locations;

If you're having trouble locating this port please refer to your vehicles owners manual

- 2 Connect the cable and the box that are included in the package.

Press until the clip snaps in place.
(Just until the 10 comb like pins are no longer visible.
Excessive force is not necessary)

5

- 3 **Attach the cable to the vehicle diagnostic port. Once you've attached the device to the diagnostic port, twist the collar clockwise to lock into place.**

If you have a vehicle with a connection type other than the circular 9 pin: *plug in attachment*

- 4 **Find a safe place for the box to set. Be sure the "THIS SIDE UP" is visible.**

Tips:

- ✓ Keep the box from direct sunlight. 
- ✓ Adhere with non-permanent solution, we suggest Velcro (included). 
- ✓ Fasten the device in an open area that allows a solid BLE connection. 
- ✓ For safety reasons, run this cord out of your footpath. 

5 Before mounting the device please be sure to clean the area you'll be adhering the device to. Let this area dry after cleaning.

Getting Setup on the Mobile Application

1 Once the mobile application is downloaded, and opened you will either need to login or sign-up.

1. Signup goo.gl/jZuw78
2. If you're part of a fleet you'll need to ask your dispatcher to add you as a driver.

2 Open Super Dispatch App

1. Type email
2. Type password (or use Super Link)
3. Please select to share locations "Always Allow"

Note:

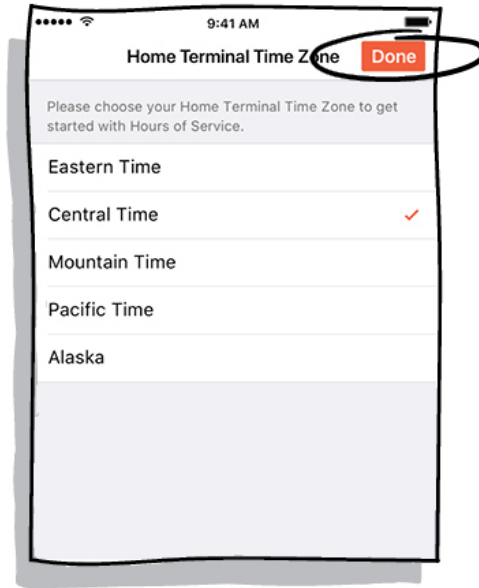

ELD device is responsible for location services information when connected, so if you chose "Don't Allow" this will not effect your FMCSA compliance.

3 Next you will need to open the HoS tab.

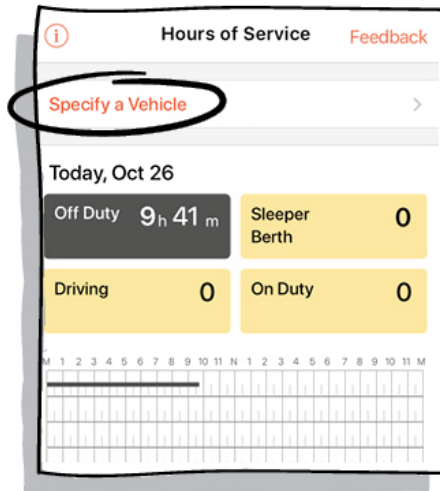

If you want to learn more about Super Dispatch ELD, please tap on **Learn More** button from this screen, otherwise you can dismiss this step by tapping **Dismiss** button

Select Home Terminal Time Zone, then tap **Done**

4 Select **Specify a vehicle**

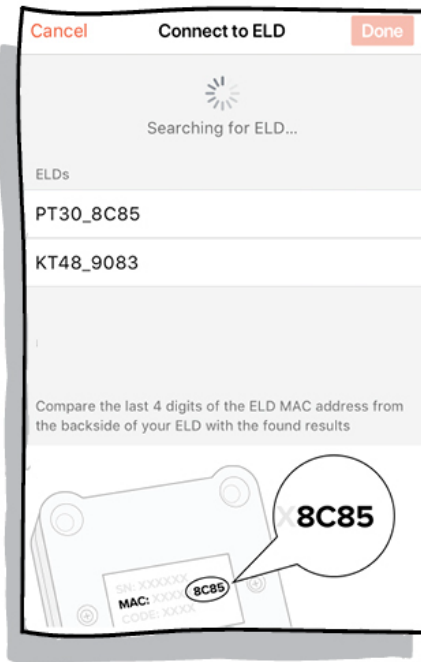

- 5 You need to input your vehicle information, when completed select "Done".

A screenshot of a mobile application form titled "Specify a Vehicle". The form has a white background with a thin border. At the top, there are three buttons: "Cancel" on the left, "Specify a Vehicle" in the center, and "Done" on the right. Below the title, there are five input fields, each with a label and a horizontal line for text entry. The fields are: "VIN" with a small orange cursor at the start; "Make"; "Model"; "Year"; and "License Number".

Connecting to ELD Device

1 Connect to ELD

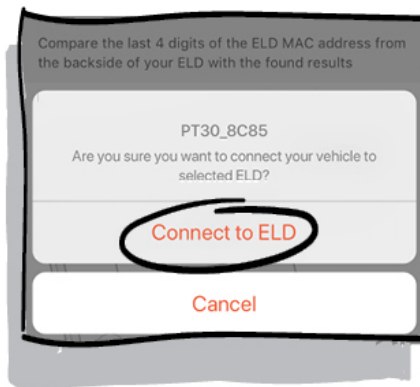

Your ELD device should match up with the last four digits of the MAC address on the back of your hardware preceded by PT30.

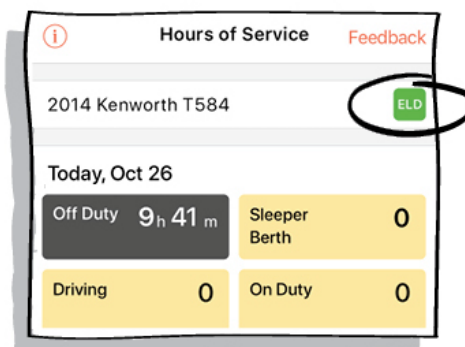

MAC address

2 Confirm you'd like to connect to device.

3 Once your connect you can back out to the HOS home screen.

- ④ **If you're connected you will see a green ELD logo indicating this.**

Alternatively, it will say not connected.

- ⑤ **Once you're connected on the Mobile application you should see a green light on the ELD hardware connected to your vehicle.**

You're all set!

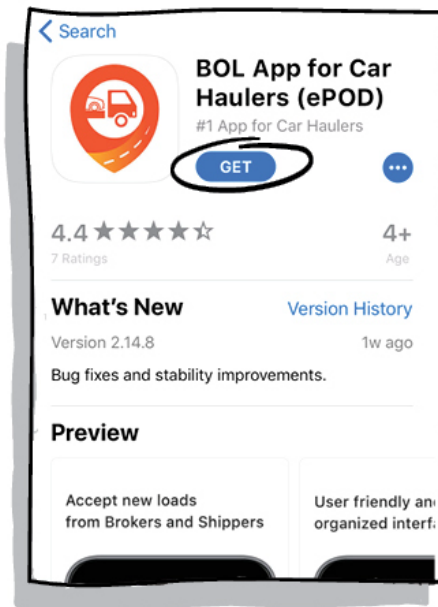

Using the Mobile Application

1 First you should download the **Super Dispatch mobile application**. While this is downloading and installing, you can begin the hardware installation.

2 Downloading and Installing the mobile app

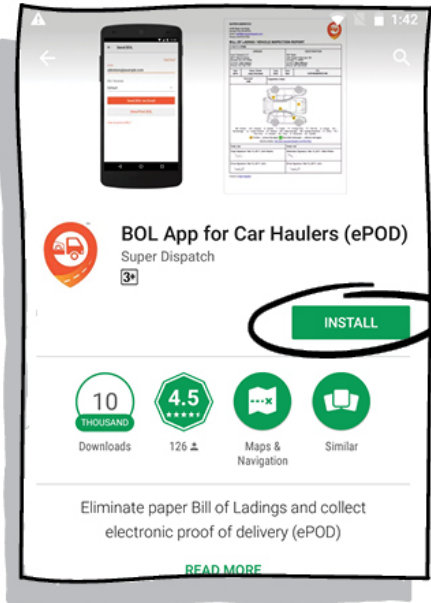

iOS:

- Open **App Store** on your iPhone
- Search for **“BOL App for Car Haulers (ePOD)”**
- **GET**
- **Open**

Android:

- Open **Google Play Store**
- Search for **“BOL App for Car Haulers (ePOD)”**
- **Download**
- **Open**

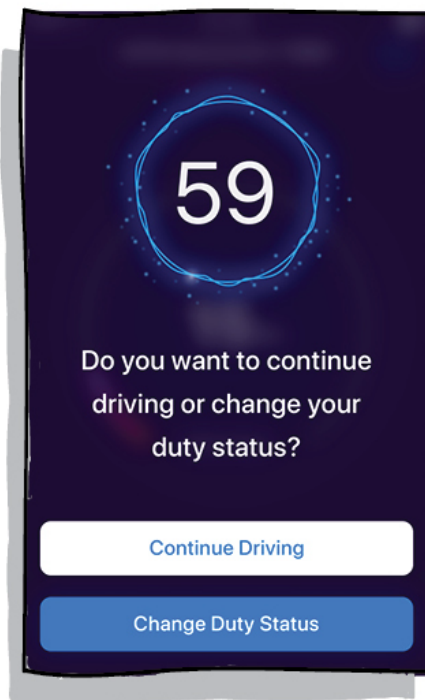

2 Once you've connected to the ELD device your drive time will automatically be recorded.

1. If the vehicles engine is on the mobile device will be in **"On Duty"**
2. Once the vehicle exceed 5mph the mobile device will you change your status to **"Driving"**

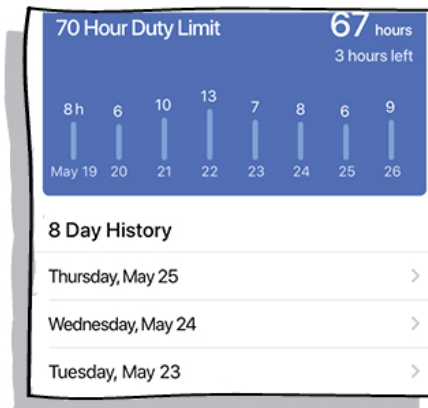

3. Once the vehicle speed reaches 0mph you will be able to change the status to **“Off Duty”**, **“On Duty”** or **“Sleeper Berth”**.
4. If the vehicle slows down to 0 mph for 5 consecutive minutes without any user interaction a pop-up window will appear asking if you want to change your status.

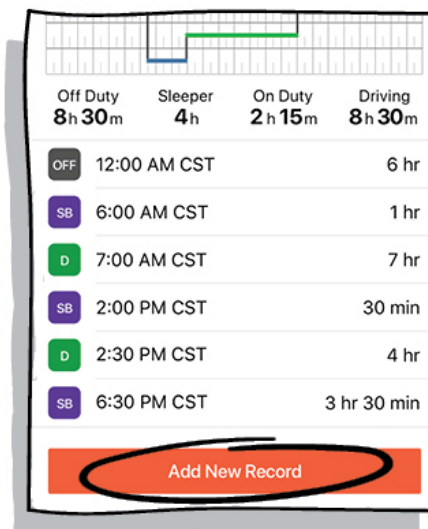

If nothing is done, the device will re-designate the status on the Super Dispatch mobile application from **“Driving”** to **“On Duty”**

3 Editing Hours of Service

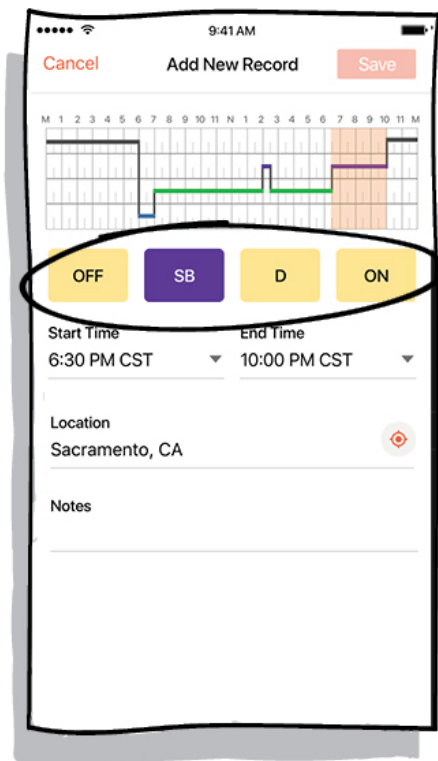

1. If you need to edit past duty status you can do this by simply selecting the day

Tap "Add New Record"

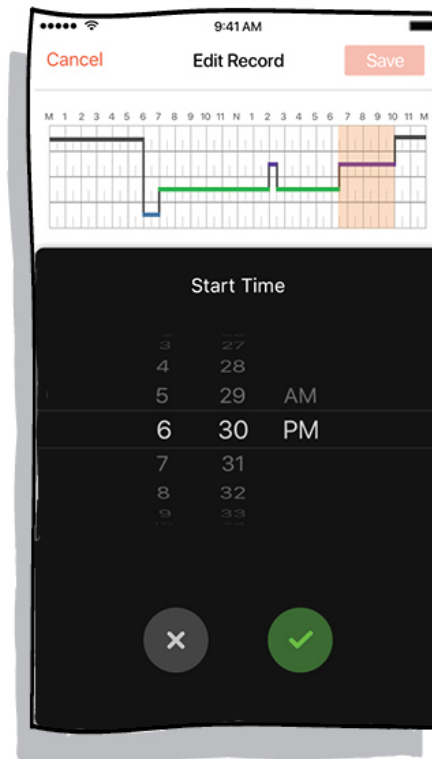

Tap status you want to add.

- If you need to edit an existing log you can do this by tapping on the specific log

	Off Duty 8h 30m	Sleeper 4h	On Duty 2h 15m	Driving 8h 30m
OFF	12:00 AM CST			6 hr
SB	6:00 AM CST			1 hr
D	7:00 AM CST			7 hr
SB	2:00 PM CST			30 min
D	2:30 PM CST			4 hr

You can change **Start Time** by tapping it and set the time.

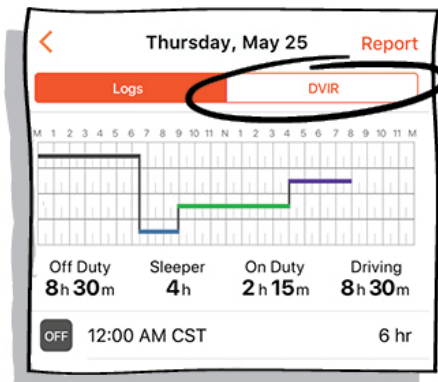

4 Do a DVIR (Daily Vehicle Inspection Report)

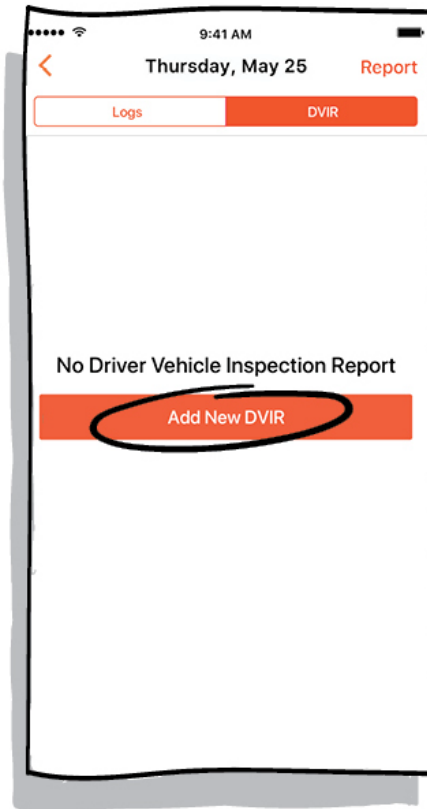

1. Select the day you want to do an inspection for

2. Select "DVIRs" in the top right corner

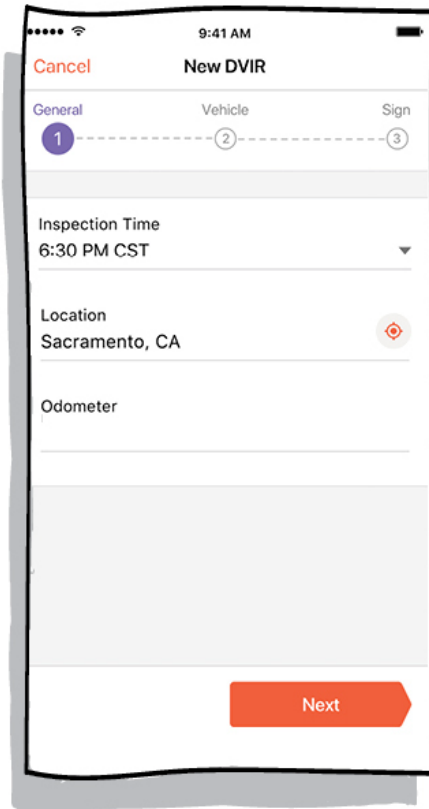

Tap **“Add New DVIR”**

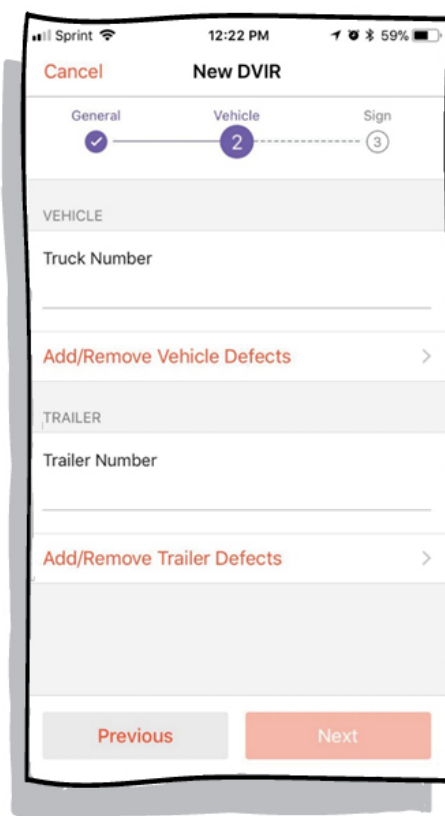

1. Step one
