Logging In and Out

Some applications require that you log in to use them. If you are unable to log in, you may accumulate unassigned vehicle activities that must be resolved by the back office.

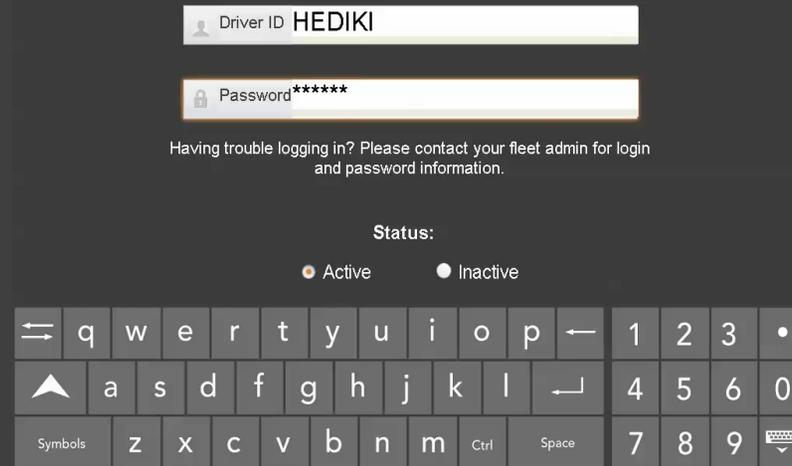

When two drivers are in the cab, the one driving is the "active" driver, and the other is the "inactive" driver.

To log in, tap **Driver Login** on the Home screen.

Logging In and Out

When you tap in a data entry field, the keyboard opens. Type your **Driver ID** and **Password**, identify if you are the **Active** or **Inactive** driver; then **close the keyboard now** by tapping  in the lower right corner.

Driver ID HEDIKI

Password*****

Having trouble logging in? Please contact your fleet admin for login and password information.

Status:
 Active Inactive

Cancel OK

Logging In and Out

Select your current duty status.

Tap **OK** now.

Logging In and Out

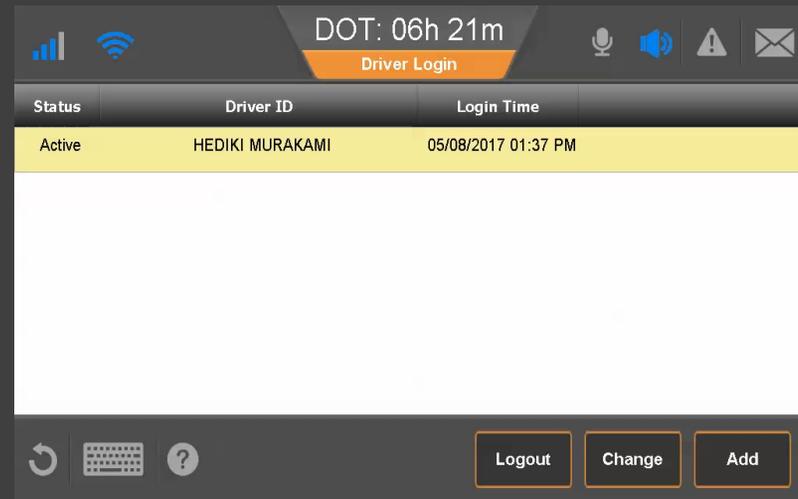

Your driver ID displays until the IVG synchronizes with the server over-the-air. When synchronization is complete, your full name displays.

Status	Driver ID	Login Time
Active	HEDIKI	05/08/2017 01:37 PM

Logging In and Out

To add a second driver, tap the **Driver Login** button on the home screen; then tap **Add**.

Tap **Add** now.

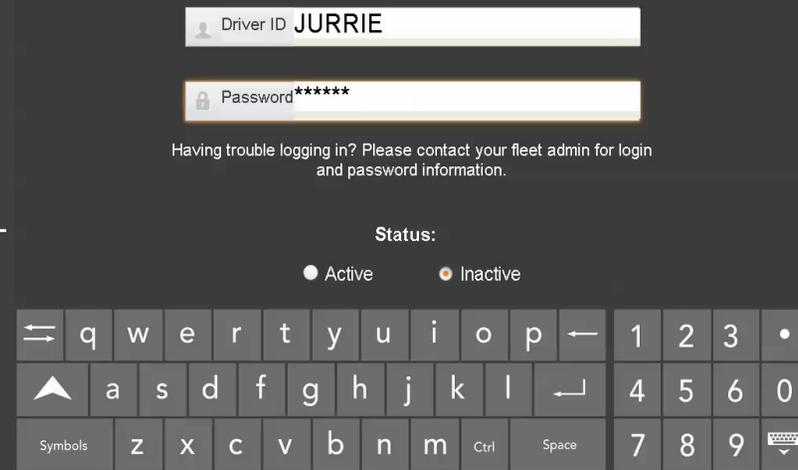

Logging In and Out

The second driver taps in a data entry field, the keyboard opens, the driver types a **Driver ID** and **Password**, identifies as the **Active** or **Inactive** driver, then close the keyboard by tapping

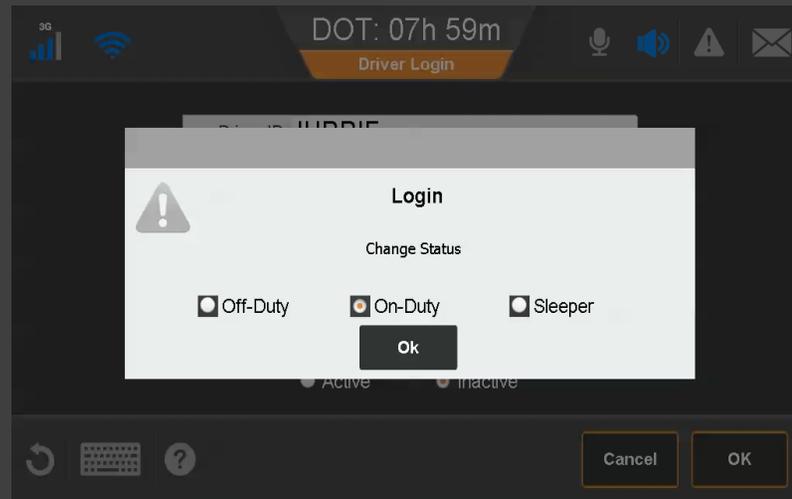

in the lower right corner.

Close the keyboard now.

A screenshot of a login interface. At the top, there are two input fields: 'Driver ID JURRIE' and 'Password*****'. Below these fields is a message: 'Having trouble logging in? Please contact your fleet admin for login and password information.' Underneath the message is a 'Status:' section with two radio buttons: 'Active' (selected) and 'Inactive'. At the bottom of the screen, a virtual QWERTY keyboard is displayed, with a keyboard close icon in the bottom right corner. The background is dark grey with a left and right navigation arrow.

Logging In and Out

The second driver selects a duty status and taps OK.

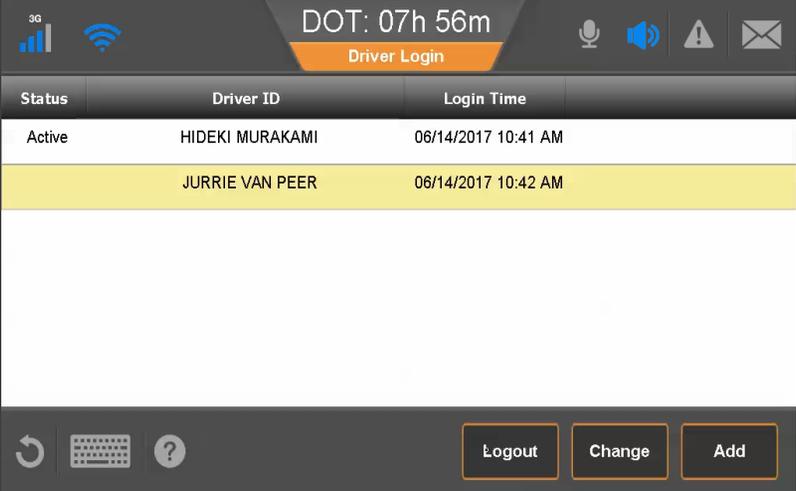

Logging In and Out

The second driver's ID remains until the IVG synchronizes over-the-air with the server.

To log off a driver, tap to select the driver; then tap **Logout**.

Tap **Logout** now.

Logging In and Out

If you didn't enter load information, view the HOS topic on load information, then enter your load information before logging out. When done, select a final duty status and tap **Logout**.

This concludes the Logging In and Out topic. Tap the **Start Over** button below to review, or tap the Menu button to go back to the menu of training topics.

Start Over

Hours of Service: Overview

Hours of Service (HOS) records and allows you to manage fully compliant electronic driver logs. Log accuracy is your responsibility; review and approve your driver logs daily.

If you have Vehicle Inspection Report (VIR) or Workflow, you can switch among these applications by tapping the buttons in the upper right.

Hours of Service: Diagnostic and Malfunction Alerts

If a sensor or hardware error occurs, you may see a pop-up from the Alert Manager notifying you that there's a problem. To see more information about the error, tap the warning icon in the upper right of the screen.

Hours of Service: Diagnostic and Malfunction Alerts

From the Alert Manager you can see all errors that were reported as well as a notification when the error state clears. When all the errors are resolved, you can tap **Delete All** to remove all errors and notifications from the Alert Manager list.

The screenshot shows the Alert Manager interface with a table of alerts. The table has three columns: Application, Alert, and Time. The alerts are listed as follows:

Application	Alert	Time
Hours of Service / VIR	ELD Malfunction Occurred	06/12/2017 12:51 PM
Hours of Service / VIR	ELD Data Diagnostic Event Oc...	06/12/2017 12:33 PM
Hours of Service / VIR	ELD Data Diagnostic Event Oc...	06/12/2017 11:10 AM
Hours of Service / VIR	ELD Data Diagnostic Event Oc...	06/12/2017 11:10 AM
Hours of Service / VIR	ELD Malfunction Occurred	06/12/2017 11:10 AM

At the bottom of the interface, there is a 'Delete All' button and a keyboard icon.

Hours of Service

The first time you use Hours of Service, you may be asked to log out and contact dispatch for further instructions.

Hours of Service: Change Duty Status

When you open HOS you see the Status tab showing the active driver on the upper left. You can select another driver if one is logged in.

Indicates the active driver

Indicates the inactive driver

Next to the driver's name is the current DOT (MOT in Canada) date and remaining hours until the driver goes into violation.

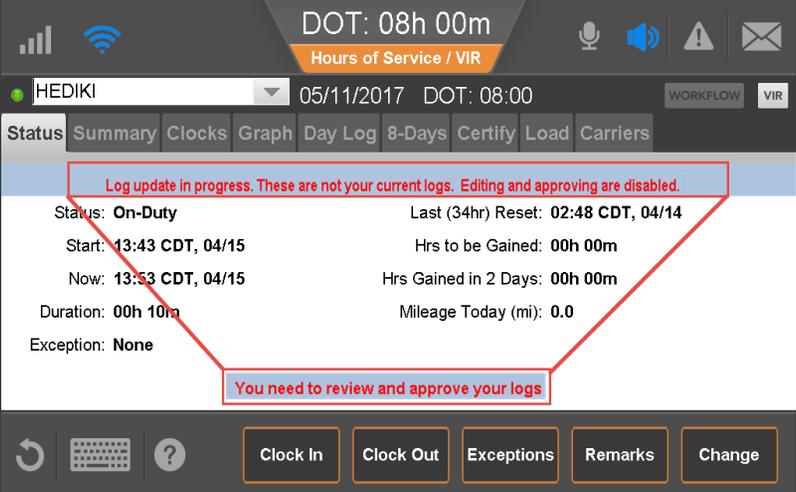

The screenshot displays the HOS application interface. At the top, it shows the DOT: 08h 00m and the title 'Hours of Service / VIR'. Below this, there's a dropdown menu for the driver name 'HEDIKI' and the date '05/11/2017' with 'DOT: 08:00'. A navigation bar includes tabs for 'Status', 'Summary', 'Clocks', 'Graph', 'Day Log', '8-Days', 'Certify', 'Load', and 'Carriers'. A red warning message states: 'Log update in progress. These are not your current logs. Editing and approving are disabled.' The main content area shows the driver's status as 'On-Duty', with a 'Last (34hr) Reset: 02:48 CDT, 04/14'. It also displays 'Start: 14:07 CDT, 04/14', 'Now: 14:11 CDT, 04/14', 'Duration: 00h 04m', and 'Exception: None'. On the right side, it shows 'Hrs to be Gained: 00h 00m' and 'Hrs Gained in 2 Days: 00h 00m'. At the bottom, there are buttons for 'Clock In', 'Clock Out', 'Exceptions', 'Remarks', and 'Change'.

Hours of Service: Change Duty Status

Before you can review, update, or certify logs, the IVG must synchronize your logs over-the-air with the server. The state of that update displays as:

- Log update in progress (not current logs)
- Review and approve your logs

You'll see the second message when your logs are synchronized.

Hours of Service: Change Duty Status

The Status tab also displays current duty status and information about that status.

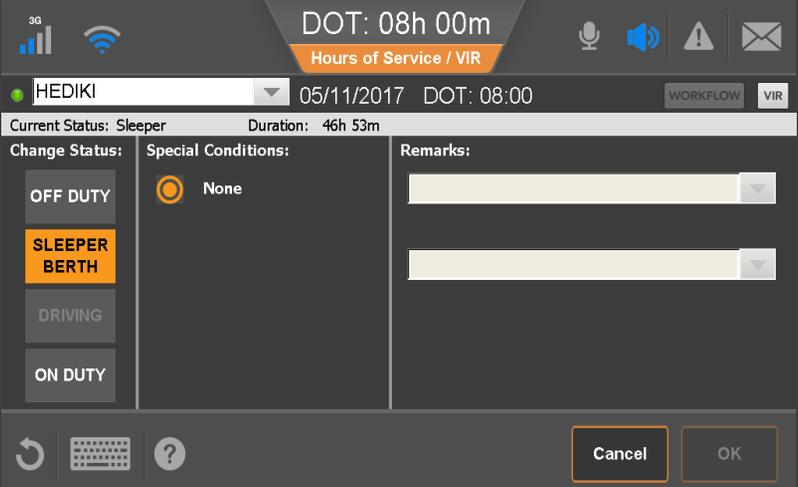

To edit remarks on your current status, you tap Remarks. To change status, tap **Change now**.

The screenshot displays the 'Hours of Service / VIR' application interface. At the top, it shows 'DOT: 08h 00m' and 'Hours of Service / VIR'. Below this, there's a dropdown menu for 'HEDIKI' and the date '05/11/2017' with 'DOT: 08:00'. A navigation bar includes 'Status', 'Summary', 'Clocks', 'Graph', 'Day Log', '8-Days', 'Certify', 'Load', and 'Carriers'. A red notification banner reads 'You need to review and approve your logs'. The main content area shows: Status: On-Duty, Last (34hr) Reset: 03:09 CDT, 04/17; Start: 11:30 CDT, 04/18, Hrs to be Gained: 08h 00m; Now: 11:32 CDT, 04/18, Hrs Gained in 2 Days: 09h 00m; Duration: 00h 02m, Mileage Today (mi): 0.0; Exception: None. At the bottom, there are buttons for 'Clock In', 'Clock Out', 'Exceptions', 'Remarks', and 'Change'.

Hours of Service: Change Duty Status

Here you manually select a duty status. Drive time is selected automatically when the wheels move. The available duty statuses are based on if you are the active or inactive driver and enabled features.

Select or type one or two pre-defined remarks from the drop-down list to describe what occurred during the status. Tap the text box to select a remark. Tap  to close; then tap **OK**.

The screenshot displays the 'Hours of Service / VIR' application interface. At the top, it shows 'DOT: 08h 00m' and 'Hours of Service / VIR'. Below this, the driver's name 'HEDIKI' and the date '05/11/2017' are visible, along with 'DOT: 08:00'. The current status is 'Sleeper' and the duration is '46h 53m'. The interface is divided into three main sections: 'Change Status:', 'Special Conditions:', and 'Remarks:'. The 'Change Status:' section has four buttons: 'OFF DUTY', 'SLEEPER BERTH' (highlighted in orange), 'DRIVING', and 'ON DUTY'. The 'Special Conditions:' section has a radio button selected for 'None'. The 'Remarks:' section has two empty text boxes with drop-down arrows. At the bottom, there are icons for a refresh button, a keyboard icon, and a help icon, along with 'Cancel' and 'OK' buttons.

Hours of Service: Change Duty Status, Personal Conveyance

When you tap Off Duty, you may also select Personal Conveyance (PC), if allowed by your company. Your company can set a time limit for how much PC you're allowed to accumulate, and when that time is exceeded, you're notified through the Alert Manager.

The screenshot shows a mobile application interface for managing duty status. At the top, there's a status bar with a signal strength indicator, a battery icon, and a DOT timer showing 06h 16m. Below this, the user's name 'HEDIKI' is displayed in a dropdown menu, along with the date '05/12/2017' and DOT '06:16'. There are also icons for microphone, speaker, alert, and email. The main content area is divided into three sections: 'Change Status:', 'Special Conditions:', and 'Remarks:'. Under 'Change Status:', there are four buttons: 'OFF DUTY' (highlighted in orange), 'SLEEPER BERTH', 'DRIVING', and 'ON DUTY'. Under 'Special Conditions:', there are two radio button options: 'None' (selected) and 'Personal Conveyance'. Under 'Remarks:', there are two dropdown menus, the first one containing the text 'Personal Time'. At the bottom, there are icons for refresh, keyboard, and help, along with 'Cancel' and 'OK' buttons.

Hours of Service: Change Duty Status, Yard Move

Because all drive time must be accounted for, an Electronic Logging Device (ELD) Mandate exempt employee (like a mechanic), must log in to the IVG if the vehicle is test driven or moved in a yard. If Yard Move is enabled by your company, that ELD-exempt driver would select the Yard Move special condition under the On Duty status.

DOT: 06h 16m
Hours of Service / VIR

HEDIKI 05/12/2017 DOT: 06:16 WORKFLOW VIR

Hours of Service: Change Duty Status, Clock In/Clock Out

If enabled by your company, Clock In and Clock Out let you account for on duty time away from the truck:

- Clock In: Before you began driving, such as attending an early driver meeting.
- Clock Out: At the end of your shift, such as completing paperwork in the office.

The screenshot displays the 'Hours of Service / VIR' application interface. At the top, it shows the DOT (Driver's On-Time) as 08h 00m. Below this, the driver's name 'HEDIKI' and the date '05/11/2017' are visible, along with the current DOT of 08:00. A navigation bar includes tabs for Status, Summary, Clocks, Graph, Day Log, 8-Days, Certify, Load, and Carriers. A notification banner states 'There is a log update pending approval'. The main content area shows the following details:

Status: Off-Duty	Last (34hr) Reset: 03:09 CDT, 04/17
Start: 11:53 CDT, 04/18	Hrs to be Gained: 08h 00m
Now: 11:53 CDT, 04/18	Hrs Gained in 2 Days: 09h 00m
Duration: 00h 00m	Mileage Today (mi): 0.0
Exception: None	

At the bottom of the interface, there are several buttons: 'Clock In', 'Clock Out', 'Exceptions', 'Remarks', and 'Change'. There are also navigation arrows on the left and right sides of the screen.

Hours of Service: Change Duty Status, Clock In/Clock Out

When you clock in, enter the time your shift began.

Tap the arrows to the right of the clock in time to adjust your start time. Select one or two remarks, or, if available, type a remark to describe what happened during the status. Then tap **OK**.

The Clock Out function works the same way.

The screenshot shows a mobile application interface for clocking in. At the top, there is a status bar with signal strength, Wi-Fi, and battery icons. Below that, a header displays 'DOT: 06h 11m' and 'Hours of Service / VIR'. The main content area is titled 'Clock In' and contains the following elements:

- A dropdown menu for the user name, currently showing 'HEDIKI'.
- A date field showing '05/12/2017' and a DOT field showing 'DOT: 06:11'.
- A 'WORKFLOW' button and a 'VIR' button.
- A text prompt: 'Enter a clock-in time from the last 24 hours:'.
- A 'Clock In:' field with a time picker set to '11:53' and left/right arrow buttons.
- A 'Date:' field showing 'Friday, May 12, 2017'.
- A 'Remarks:' field with a text input area and a dropdown menu.
- A bottom navigation bar with icons for refresh, keyboard, and help.
- Two buttons at the bottom right: 'Cancel' and 'OK'.

Hours of Service: Change Duty Status

Hours of Service: Edit Logs, Carrier Edits

When you reject carrier edits, you must provide a reason for rejecting the edits. We pre-filled a reason for you.

Tap **Save** now.

The screenshot shows the 'Hours of Service / VIR' app interface. At the top, there is a status bar with signal strength, Wi-Fi, and battery icons. Below that, a header displays 'DOT: -16h 28m' and 'Hours of Service / VIR'. A dropdown menu shows 'Hideki Murakami' with a date of '06/15/2017' and 'DOT: -16:28'. There are 'WORKFLOW' and 'VIR' buttons. The main content area is titled 'Reason for Rejecting Carrier Edit' with a character count of '17 / 60'. A text input field contains the pre-filled reason 'Date is incorrect'. At the bottom, there are icons for refresh, keyboard, and help, along with 'Cancel' and 'Save' buttons.

Hours of Service: Edit Logs, Carrier Edits

After you provide a reason for rejecting the edits, you're prompted to certify your logs.

Tap **Agree** now.

The screenshot shows a mobile application interface for Hours of Service (HOS) certification. At the top, there's a status bar with signal strength, Wi-Fi, and battery icons. Below that, a header displays 'DOT: -16h 28m' and 'Hours of Service / VIR'. A dropdown menu shows the user 'Hideki Murakami' and the date '06/15/2017' with 'DOT: -16:28'. There are 'WORKFLOW' and 'VIR' buttons. The main section is titled 'Certify Day' with the date '06/08/2017'. A certification statement reads: 'I hereby certify that my data entries and my record of duty status for this 24-hour period are true and correct.' Below this is a table with columns 'Start', 'Status', 'Duration', and 'Origin'. The table contains one entry: '00:00:00', 'Off Duty', '24h 00m 00s', and 'Driver'. At the bottom, there are icons for refresh, keyboard, and help, along with an 'Agree' button.

[Add/Edit load info](#)

The screenshot shows the 'Hours of Service / VIR' application interface. At the top, it displays 'DOT: 08h 00m' and 'Hours of Service / VIR'. Below this, the driver's name 'Demo Driver' and the date '06/15/2017' are shown, along with 'DOT: 08:00'. A navigation bar includes tabs for 'Status', 'Summary', 'Clocks', 'Graph', 'Day Log', '8-Days', 'Certify', 'Load', and 'Carriers'. The 'Certify' tab is active, showing a table with columns 'Start', 'Status', 'Duration', and 'Origin'. A single entry is visible: a green checkmark, '00:00:00', 'Off Duty', and '24h 00m 00s'. Above the table, it says '7/8 Certified' and '6 of 8 Days Certified' for the date '06/14/2017'. At the bottom, there are buttons for 'Edit' and 'Certify'.

Hours of Service: Add/Edit Load Info

Load information is required for each trip.

If you haul loads for different carriers within your company, you can select them from the Carriers tab. When you select another carrier, a message displays while the carrier change is processing. You can continue working.

To see load information, tap **Load now**.

The screenshot shows the 'Hours of Service / VIR' mobile application interface. At the top, there is a status bar with signal strength, Wi-Fi, and battery icons. Below that, the DOT (Driver's Hours of Service) is displayed as '08h 00m'. The carrier is set to 'HEDIKI' and the date is '05/11/2017'. The DOT is also shown as '08:00'. There are navigation icons for 'WORKFLOW' and 'VIR'. A menu bar includes 'Status', 'Summary', 'Clocks', 'Graph', 'Day Log', '8-Days', 'Certify', 'Load', and 'Carriers'. A red notification banner reads 'You need to review and approve your logs'. The main display area shows the following information:

Status: On-Duty	Last (34hr) Reset: 03:09 CDT, 04/17
Start: 11:30 CDT, 04/18	Hrs to be Gained: 08h 00m
Now: 11:32 CDT, 04/18	Hrs Gained in 2 Days: 09h 00m
Duration: 00h 02m	Mileage Today (mi): 0.0
Exception: None	

At the bottom, there are several buttons: 'Clock In', 'Clock Out', 'Exceptions', 'Remarks', and 'Change'. There are also navigation arrows on the left and right sides of the screen.

Hours of Service: Add/Edit Load Info

Here you can view load history and edit load information as necessary.

When you enter load information, you enter the start and end dates of the trip. This associates log records with the load.

To enter a load, **tap *New Load* now.**

[Add/Edit load info](#)

Hours of Service: Tab Descriptions, Summary

The Summary tab shows remaining time for each clock based on rulesets and your reported hours.

Available drive time is the time remaining on the 11-hr clock/13-hr for CAN Main (or less if another clock has less time). The clock with the least remaining time determines your available On-Duty time.

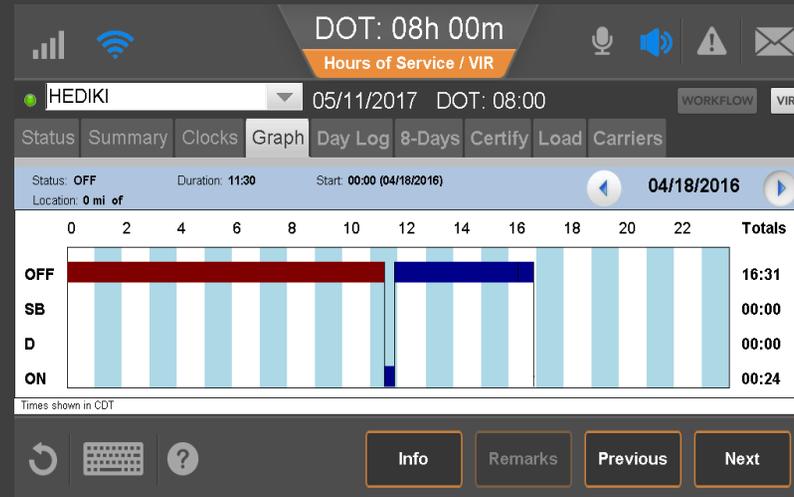

For CAN Rules, Off Duty Today displays total qualifying off-duty time taken today. In parentheses, the amount of off duty time taken outside of a reset also displays (not for CAN North).

Hours of Service: Tab Descriptions, Graph View

Here, logs display as a graph. Tap a bar to display that segment's details above the graph. With a bar selected, the Remarks button may be active if there is a remark associated with the log. The Info button shows your carrier information.

Tap Previous and Next to select different segments, and tap the back and forward arrows to change days.

Hours of Service: Tab Descriptions, Duty Cycle

The duty cycle tab displays driving and on duty time as well as hours used for your duty cycle. The number of days depends on what rule set you're running: 7-Days or 8-Days in the US, Cycle 1 or Cycle 2 in Canada.

For some states, the state code displays instead of DOT or MOT clock, for example "TX 8:00" instead of "DOT 8:00."

Driver Hours Assist

The Driver Hours Assist application is developed for drivers using smart phones or tablets running an Android operating system as an extension to the in-cab ELD . If in-cab ELD stops functioning, this application lets drivers retrieve and store logs as a PDF for the previous 7, 8, or 14 days on the Android device allowing drivers to display log details as required by enforcement during road side inspections. This PDF may be displayed to enforcement, sent as an email, or printed.

Drivers may clock in (On Duty) and clock out (Off Duty) through the Driver Hours Assist application while away from the vehicle as long as the driver is not logged in on the in-cab ELD. After a clock in/clock out event, when a driver next logs in to the in-cab ELD, the duty status change is presented as an edit that the driver rejects or accepts to confirm the driver-initiated status change(s). The Driver Hours Assist application also alerts the driver if there are pending edits from the carrier waiting on the in-cab ELD.

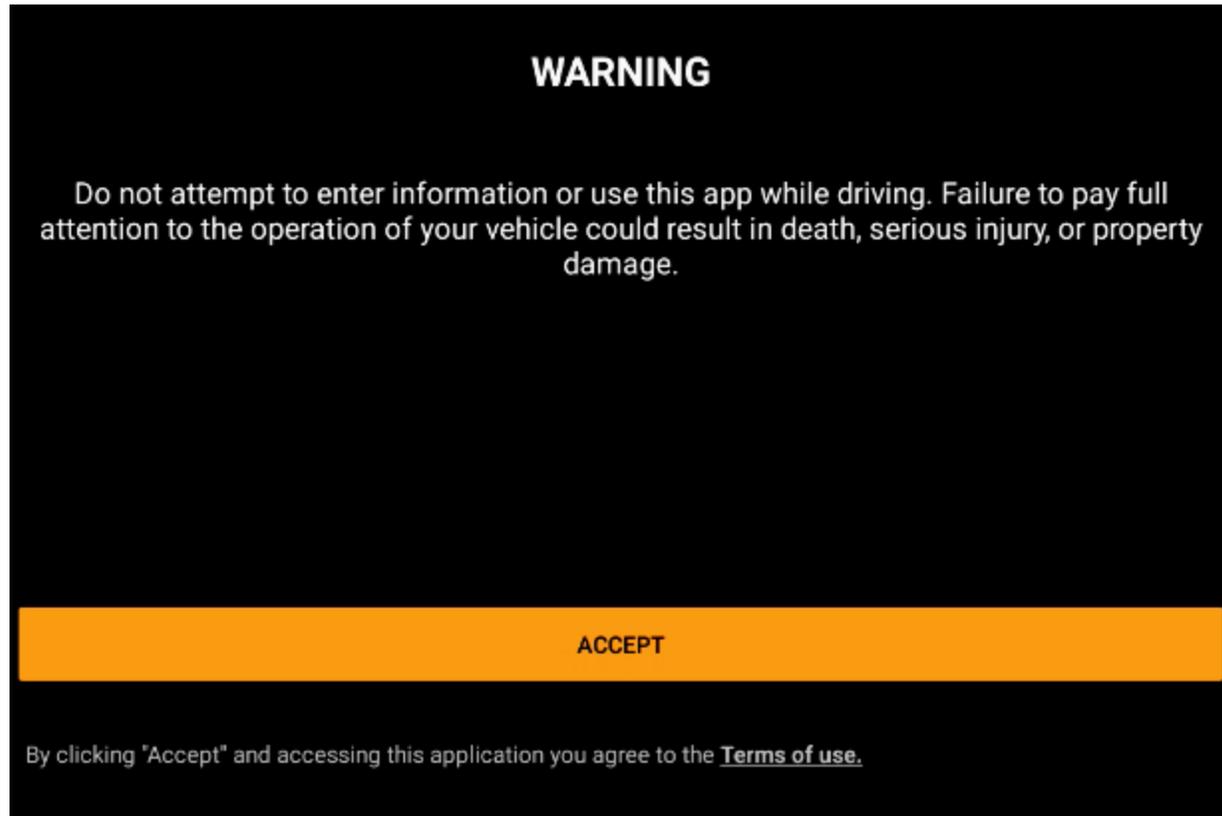

To comply with distracted driving regulations, the Driver Hours Assist application uses motion detection to prevent the application from being used while in motion.

Driver Hours Assist: Motion Detection Warning Screens

Drivers see these warning screens when the Driver Hours Assist application detects movement greater than 5 MPH (8 KPH) and may not be used until under that threshold.

The screenshot shows a mobile application login screen titled "Driver - Log In". It features a dark grey background with white text. At the top left is a back arrow icon. The form contains the following fields and elements:

- Company Name (Required):** A text field containing "customers" with a character count of "5 / 20".
- Driver ID (Required):** A text field containing "vbabb" with a character count of "4 / 20".
- Password (Required):** A text field with masked characters "****" and a character count of "4 / 20".
- Last Name (Required):** A text field containing "babb" with a character count of "4 / 32".
- Terms of Use:** A checkbox that is checked, followed by the text: "By checking this box you agree to the Terms of Use and further acknowledge that you will not attempt to enter information or use this application while driving."
- Log In Button:** A large orange button with the text "LOG IN" in white capital letters.
- Disclaimer:** At the bottom, it says "By clicking 'Log In' and accessing this application you agree to the [Terms of use](#)."

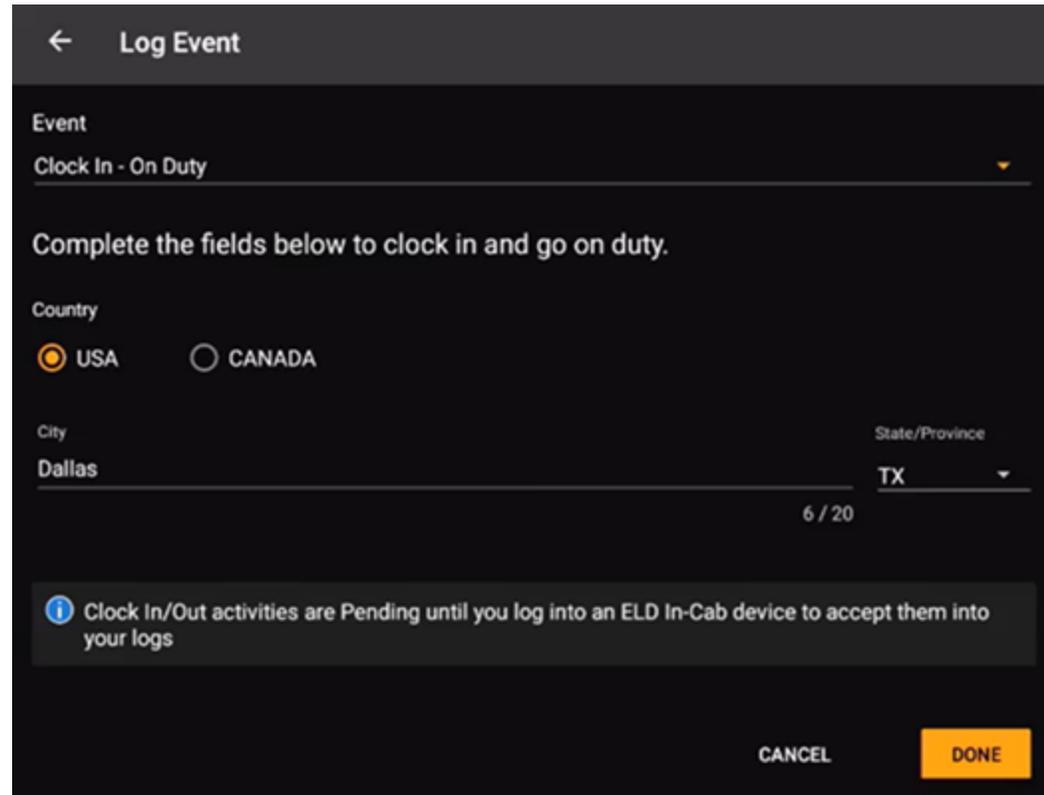

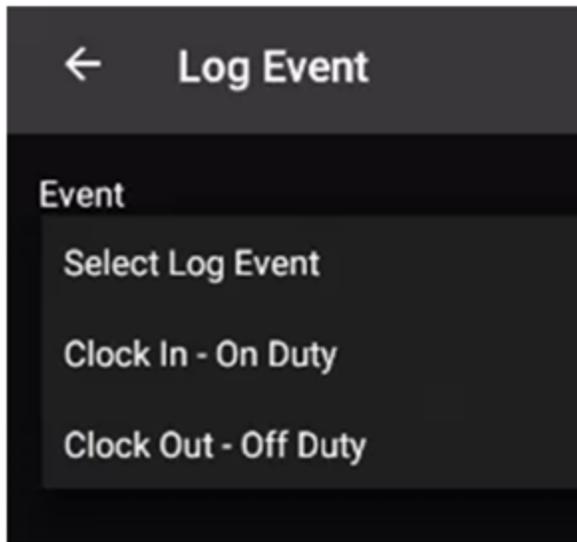

Enter your password and last name. Accept the terms of user and tap **Log In**.

Driver Hours Assist - Clock In/Clock Out

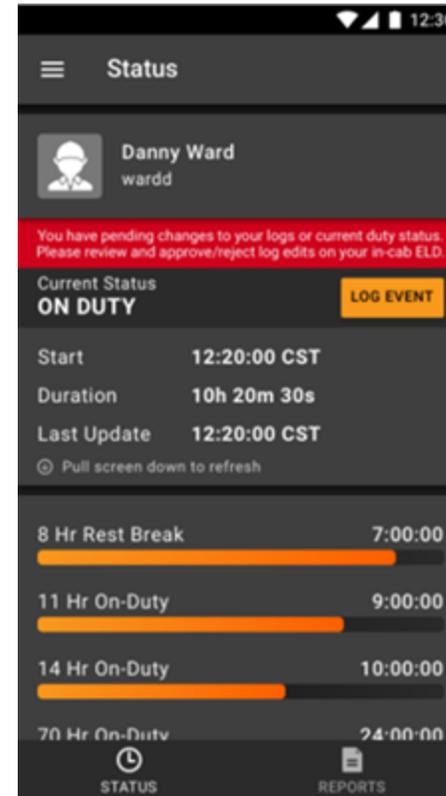

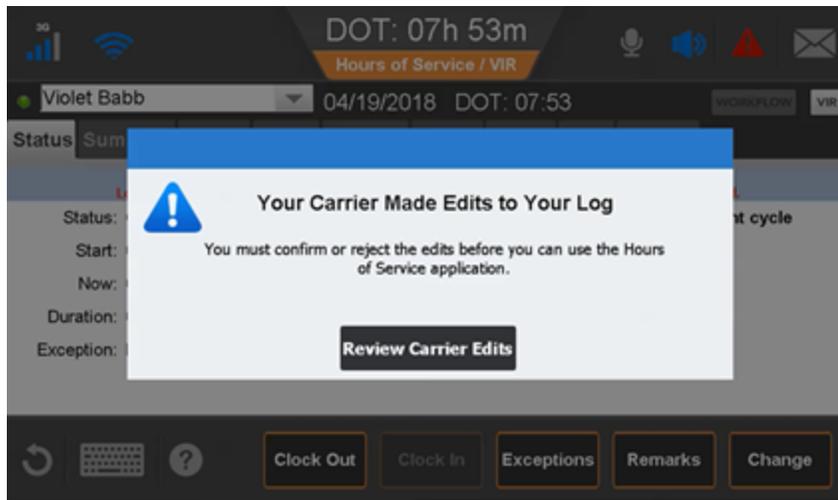

When you want to clock in or clock out, go to the home screen and tap **Log Event**.

Driver Hours Assist - Clock In/Clock Out

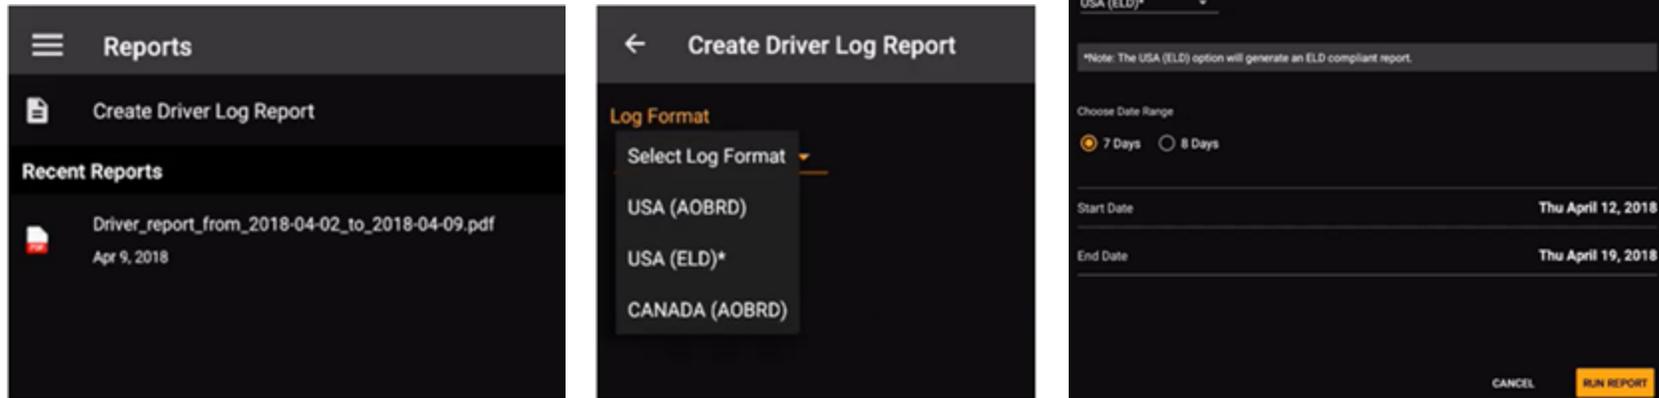

Select the event type and tap **Done**.

Driver Hours Assist - Pending Carrier Edits

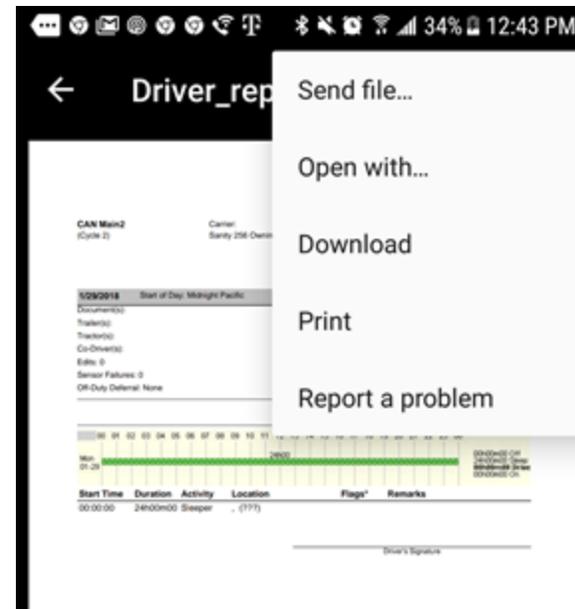

If the carrier made edits to your logs, you're notified on the in-cab ELD and in the Driver Hours Assist application.

Driver Hours Assist - Generate Reports

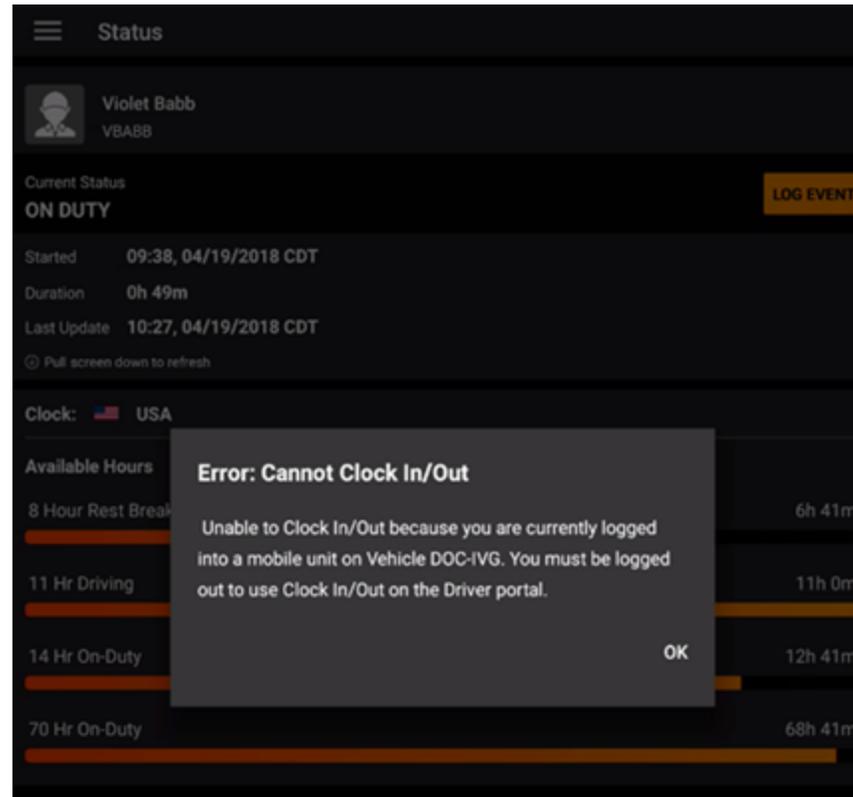

Tap **Reports** at the bottom of the screen; then tap **Create Driver Log Report**. Tap the Format, Date Range; then tap **Run Report**.

Driver Hours Assist - View and Send/Print Reports

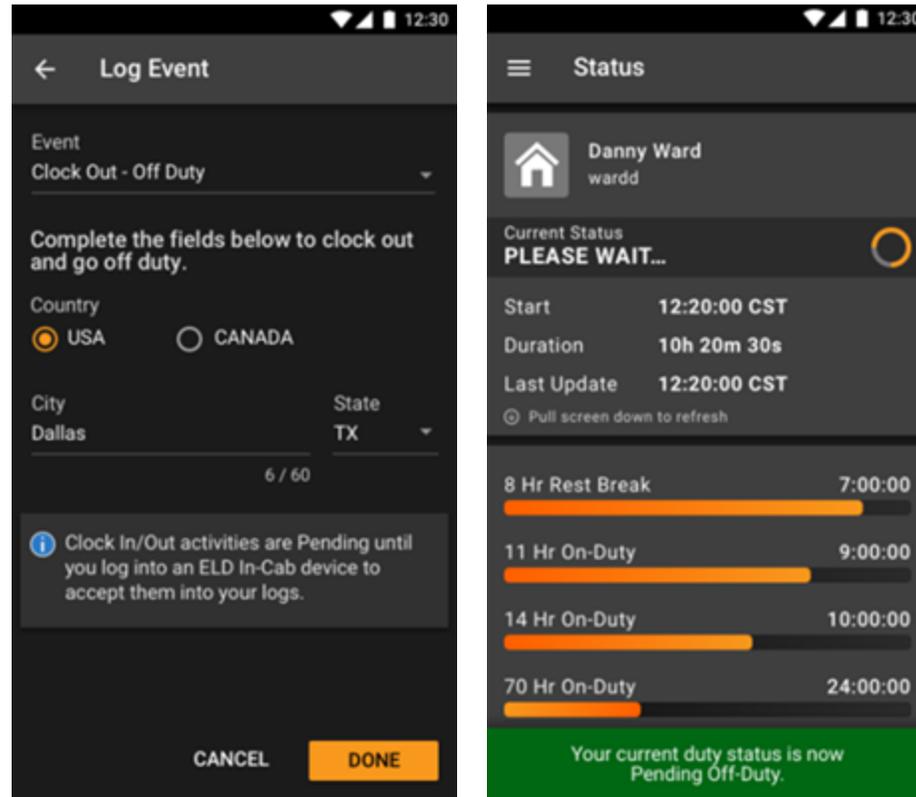

After the report displays, tap the menu in the upper right and select an option.

Driver Hours Assist - Clock In/Clock Out Warning

If the driver attempts to clock in or clock out while logged in to an in-cab ELD, the driver receives this warning. Only after the driver logs out of the in-cab ELD may the driver clock in or clock out using the Driver Hours Assist application.

Driver Hours Assist - Clock In/Clock Out Notifications

When you successfully clock in or clock out, your changes are pending until you accept your log update on the in-cab ELD.
