Select the **Product** you are carrying and Press **Finish**.

Unassigned Record

An **Unassigned Record** prompt may show up next if the truck was driven recently but no driver was logged in. All truck moves must be assigned to a driver.

The dialog box has a title bar 'Unassigned Record'. Below the title bar, the text reads '11/25/2019 10:06:35 AM Duty Change - Driving Claim this record?'. On the left side, there are two buttons: 'No' (top) and 'Yes' (bottom). Red arrows point to both buttons.

Press **Yes** or **No**.

- If you select **Yes**, then you will claim the previous driving logs.
- If you select **No**, then the unassigned logs will automatically be sent to the office and be assigned from there.

If the office assigns a missing log to you, you must accept the missing event(s).

The dialog box shows a comparison between 'Original' and 'Office Edit' records. At the bottom, there are three buttons: 'Decline', 'Accept', and 'Finish'. Red arrows point to 'Decline', 'Accept', and 'Finish'.

If any Malfunctions or Diagnostics exist, they will appear on this screen.

Press on "**Malfunctions**" or "**Diagnostics**" to read the details of each.

About

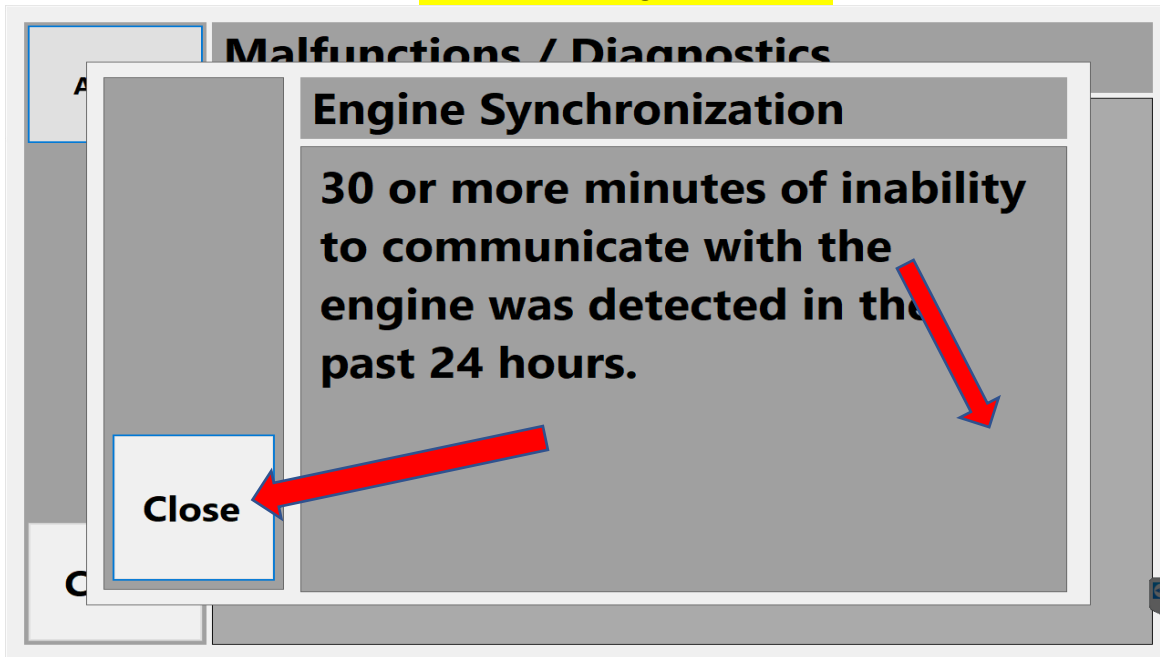

Malfunctions / Diagnostics

Detection Time	Type	Description
11/13/2019 10:03 AM	Malfunction	Engine Synchronization Compliance
11/7/2019 2:29 PM	Diagnostic	Engine Synchronization Data

Close

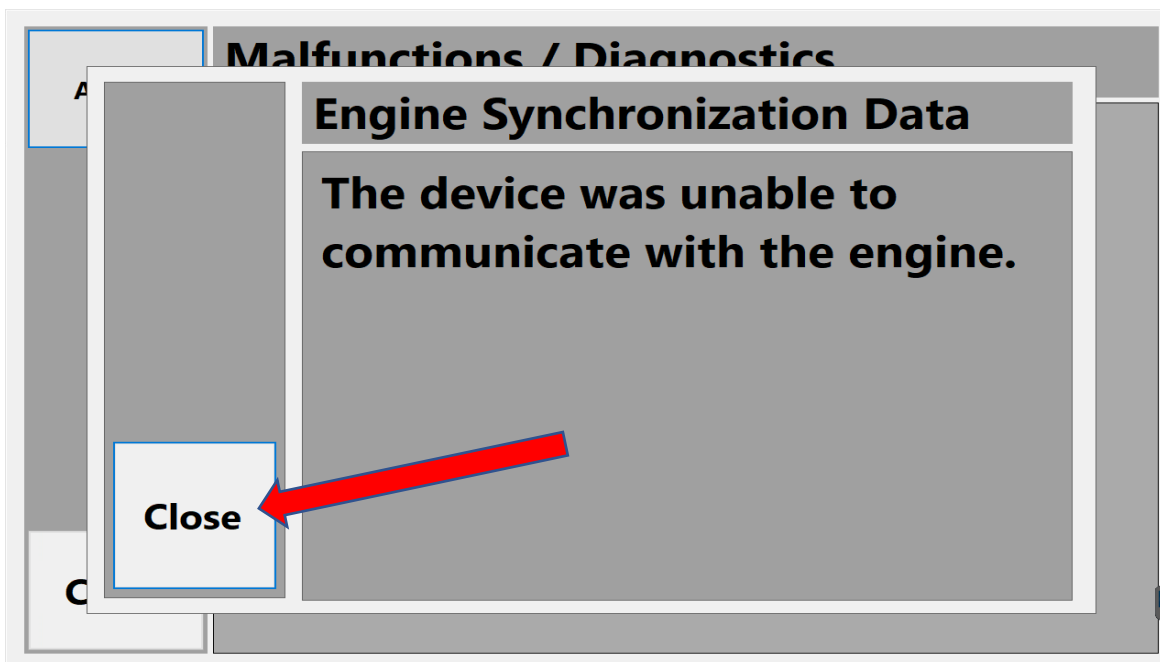

Press on any "**Malfunction**" or "**Diagnostic**" line to view the details of each.

For a complete list of Data Diagnostic / Malfunction Events, please see the last page of the ELD manual.

This screen shows any Malfunctions that are present.
Press **Close** to return to the home screen.

*****If a Malfunction occurs over an extended period of time and paper logs must be used, then a written notice of the Malfunction must be provided and turned in to the main office within 8 days.*****

This screen shows any diagnostics that are present.
Press **Close** to return to the home screen.

Diagnostics/Malfunctions

Diagnostic Events

Power Data

(ex. ELD does not record the engine turning on or off in the past 24 hours)

Actions Required

Turn on tablet before you start the truck engine

Will the Diagnostic clear automatically?

Yes, if power is restored.

Engine Synchronization Data

(ex. VNA could be unplugged or defective)

Plug in VNA cord

Yes, if VNA communicates with the ELD.

Missing Required Data Elements

(ex. a data entry must include either
1. city, state, and zip code OR
2. mile marker and intersection)

Edit any past events that are highlighted in red

Yes, once no past events are missing data.

Data Transfer

(ex. The "Officer" function is not working)

Call PMS

No, the issue must be resolved by PMS

Unidentified Driving Records

(ex. The truck was driven without a driver being logged in)

Claim any unlogged driving time
OR reject the driving time and it will be assigned by the home office

Yes

Malfunction Events

Power Compliance

(ex. 30+ minutes of engine hours has accumulated without the tablet being turned on)

Actions Required

Check power cord

*Call home office if power does not restore or if problem persists

Will the Malfunction clear automatically?

Yes, if power is restored and is fully functional for 24 hours

Engine Synchronization Compliance

(ex. VNA could be unplugged or defective)

Check VNA cord

*Call home office if problem persists

Yes, if VNA communicates with the ELD

Timing Compliance

(ex. The tablet and server are showing different clock times)

Call PMS

No, the timing function between the server and ELD must be resolved by the home office

Positioning Compliance

(ex. The truck was moved while the ELD was turned off and it could not register the movement)

Check external GPS unit on ELD unit to make sure it has power and is plugged into the tablet

*Call home office if the problem persists

Yes, if the GPS is fully functional for 24 hours

Data Recording Compliance

(ex. There is a problem with the ELD recording and storing data on the tablet)

Call home office

No, the issue must be resolved by the home office

Data Transfer Compliance

(ex. the "Officer" function is not working and has failed multiple times)

Call home office

No, the issue must be resolved by the home office

Duty Status/ On Duty

The screenshot shows the PMS Electronic Logging Device interface. At the top, the current driver is Scott Davis, and there is a Log Out button. The main title is 'Electronic Logging Device'. Below this are two tabs: 'Home' and 'Inspections'. The 'Inspections' tab is active. The interface is divided into several sections: 'Vehicle Information', 'GPS Information', and a set of buttons for duty status. The 'Time Until Break' field in the 'Vehicle Information' section is highlighted in green and has a red arrow pointing to it. The 'Status' field shows 'On Duty'. The 'Off Duty' button is highlighted with a blue border. The 'Malfunctions (1)' and 'Diagnostics (2)' links are visible. The bottom status bar shows the version, TeamViewer ID, brightness, and VNA/GPS options.

Below the table is a large grey rectangular area. At the bottom of the screen are three buttons: "Add Event", "Edit Event", and "Close". Three red arrows point from the grey area to each of these buttons.

From this page you will be able to see all of your added events. You may choose to **Add Event** or **Edit Event** (only if needed). Press **Close** to return to the home screen.

Note: If you missed an entire shift, you will need to add two events: one for the opening punch and another event for a closing punch.

Duty Assignment Troubleshooting

Duty Assignment Troubleshooting

If you are on "**Personal**" time and turn the **engine off**, when you turn the **engine back on** you will be asked if you are still on "**Personal**" time. (Answer **Yes** or **No**)

Note: If you Press **No**, you will still be "Off Duty".

Personal Use Confirmation

Engine power cycle detected,
continue being in the Personal
Use status?

No

Yes

*****Automatic Switching of Duties May Occur if:**

1. You exceed **5 mph** (will change from "**On Duty**" to "**Driving**")
2. You are unmoved for **5 minutes**, you will be asked if you are still driving.
 - If you answer **Yes**, then your duty will remain "**Driving**".
 - If you answer **No**, then your duty will change from "**Driving**" to "**On Duty**".
 - If you do not answer the prompt within 1 minute, your duty will be automatically changed from "**Driving**" to "**On Duty**".

*****Note: Once your status is set to "**Driving**", you must come to a complete stop for **3 seconds** before you can change your status.*****

Duty Status/Yard Move

Press on **Yard Move** if you are moving a vehicle within a plant lot.
 Note: All yard moves must be recorded since the truck computer will record a change in GPS location.

Type in your **Reason** for a Yard Move and Press **Save**.

Note: If you are on "Yard Move" and turn the engine off, when you turn the engine back on you will NOT be asked if you are still on "Yard Move".

Your status will automatically change to "On Duty".

Note: All changes will be recorded in your HOS log.

Officer

Current Driver: **Scott Davis** Log Out

If a DOT Officer wishes to Transfer data, Press **Officer**. Also be prepared to show HOS 7 Day.

Select which **method** of data transfer the officer requests.

You will be automatically directed to the next page.

You may Press **Close** to return to the Home screen.

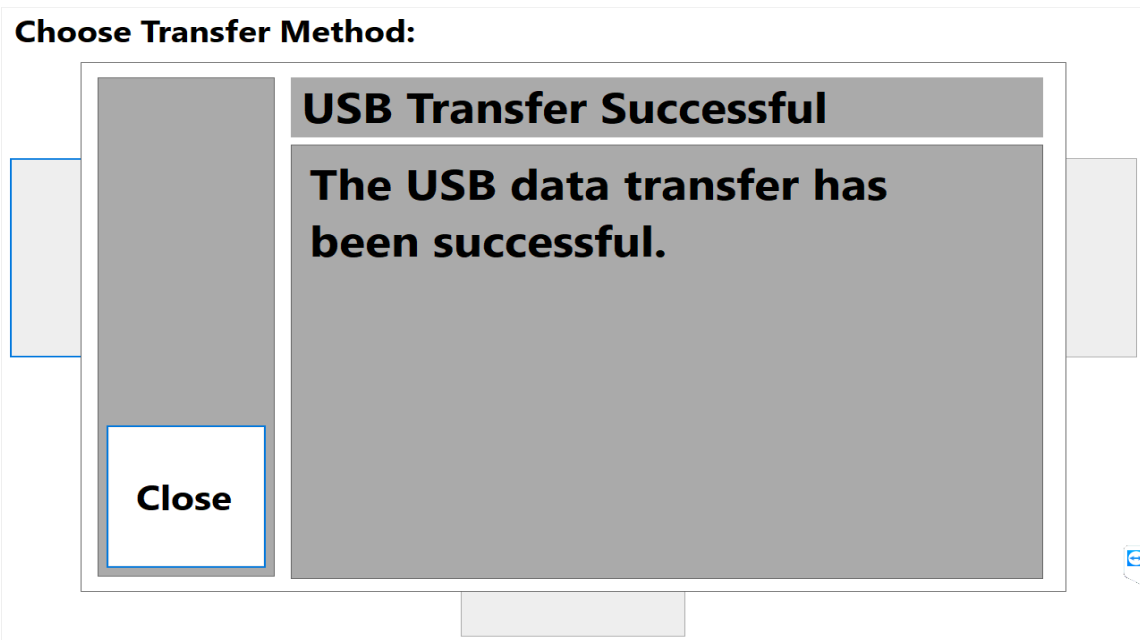

For further "Officer" instructions, refer to appendix A (in the back of the manual).

Officer

Enter a Comment: _____

Enter a comment for the data transfer and Press **Save**.

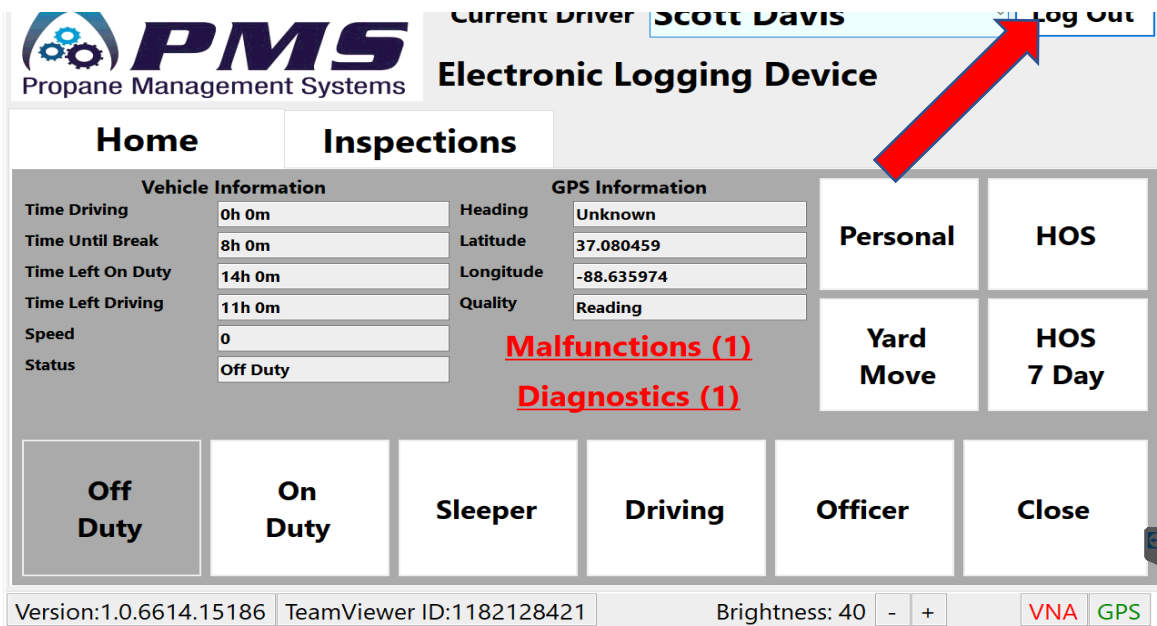

Once your data transfer is confirmed, Press **Close**.

Press **Off Duty**, then Press **Personal**.

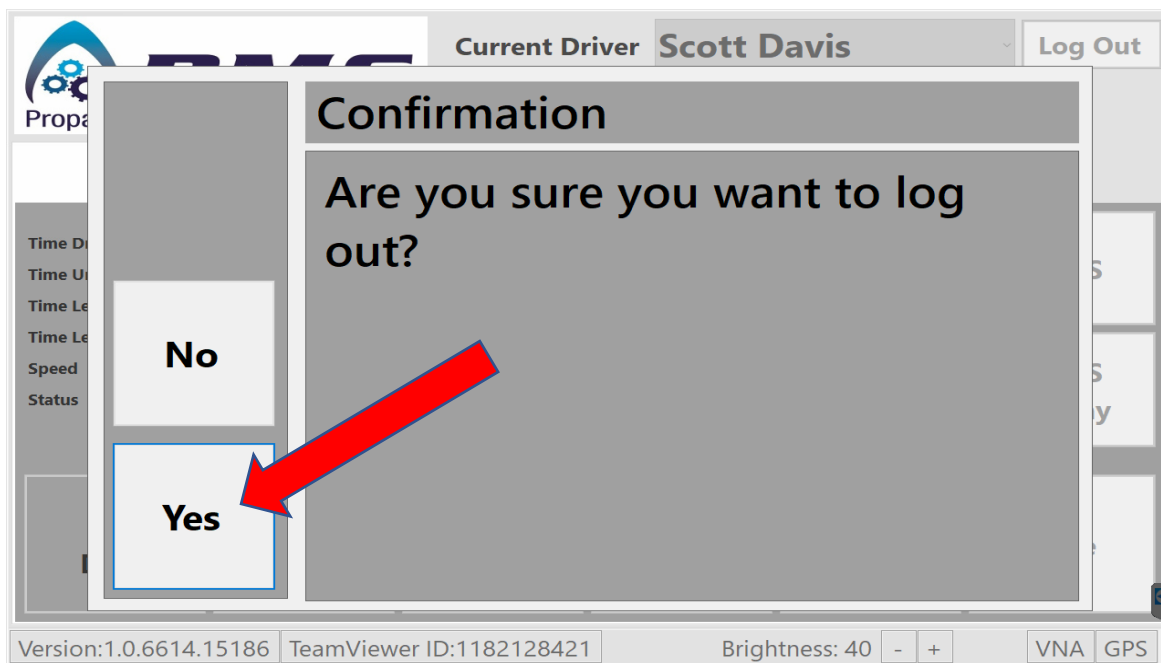

Note: You will not be able to select **Personal** unless you are "Off Duty".

Type in a **reason** for your Personal time and Press **Save**.

Press **Log Out**.

Note: You must be "Off Duty" to be able to select "Log Out".

Press **Yes**.

Note: Once you log out, data will begin to upload to the server. Make sure you have a good Wifi signal or else the upload may get disrupted.

Logging Out

Press **Yes**.

Current Driver **Scott Davis** Log Out

For Additional Support, Press the **PMS icon** in the top left of the Home Screen.

For Additional Support, Call the phone number listed.

Appendix A: Officer Instructions

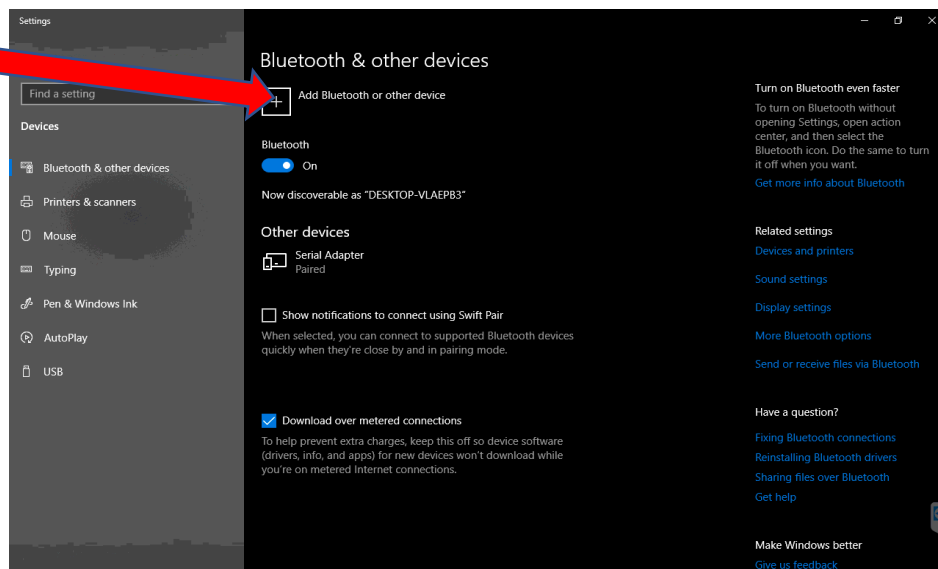

If you are pulled over by a DOT officer, you may transfer data in 3 ways using the "Officer" button. The instructions for each are listed below:

USB

1. Insert the flash drive into the USB port of the tablet. (The flash drive is provided by the DOT officer)
2. Press the **USB** button.
3. A screen will pop up that will verify that the data transfer was successful.

Bluetooth

1. Press the **Bluetooth** button
2. Press "Add Bluetooth or other device"
3. In the following pop-up box, when asked which type of device you want to add, press "Bluetooth". (It will be the top option)
4. Select the device you wish to pair to from the list (the DOT officer will know which one).

Web

1. Press the **Web** button
2. A screen will pop up that will verify that the data transfer was successful.

Note: You must have internet access for this function to work
