<td>Automatic IFTA state mileage reporting saves you time and money.</td>
</tr>
<tr>
<td><strong>Access Permissions</strong></td>
<td>Manage permissions for fleet managers, compliance officers, drivers, accountants, brokers and customers</td>
</tr>
</tbody>
</table>
Simply plug Electronic Logging Device into a vehicle ECM port and start recording driving hours and miles automatically.

Logbook app connects to Electronic Logging Device via bluetooth and displays recorded driving time to a driver.

GURFATEH ELD & App work great with most tablets and smartphones. Use your own or purchase devices and data plans from us.
Install & Connect ELD

GURFATEH ELDs are installed within minutes

✅ Locate ECM (diagnostic) port
Locate ECM (diagnostic) port inside of your vehicle. Look for 9-pin or 6-pin circular ports in heavy duty vehicles. Look for OBDII port in light/medium duty vehicles.

✅ Install ELD
Simply plug the provided cable into a vehicle ECM (diagnostic) and attach the other end to the ELD device. The dual fastener is provided for dash mounting.

✅ Log into GURFATEH ELD Logbook App
Log in to GURFATEH ELD Logbook App on your tablet/smartphone with a username and password created during a sign up process or provided by a fleet manager.

✅ Connect ELD
Select a vehicle from a list of available vehicles and your device will attempt to connect to ELD via Bluetooth. Green Bluetooth indicator at the top right corner means you are ready to start using ELD.

GURFATEH ELD - Electronic Logging Device
Visual notifications and sound warnings help you to avoid hours of service violations and stay compliant.

Warnings
Available driving hours, required breaks, on-duty limits and required off-duty time are calculated automatically.

Hours

- DRIVE Today: 08:12
- SHIFT Today: 11:03
- DRIVE Tomorrow: 11:00
- CYCLE 7d-8: 67:12

Driving with ELD

☑ Once ELD connected, your driving time will be captured automatically.
☑ Once your vehicle is moving at 5 mph or more, your duty status is switched to Driving.
☑ Your logs and other features are not available while in Driving mode due to safety reasons.
☑ Once your vehicle is stopped, you may change your duty status by tapping on the status circle. The app will remind you to make a selection in 5 minutes. If no selection is made, your duty status will be switched to On Duty.

Warnings
Visual notifications and sound warnings help you to avoid hours of service violations and stay compliant.

Duty Status

Set duty status with just two-clicks. Status is updated automatically when driving starts or stops. Easy-to-use interface allows drivers to spend less time doing paperwork and more time driving. GURFATEH ELD simplifies training and prevents log errors.

Current Status

Current duty status is always displayed on Status page inside of status circle along with available or reset hours.

Change Status

Tap the status circle, select your current status, add a note if necessary (i.e. pre-trip inspection) and press “Update” button.

Personal/Yard

Personal Use Off-duty and Yard Move On-Duty statuses must be configured and allowed by a fleet manager.
Today’s Log
Tap on TODAY’s log to view & manage your current log.

Logs History
View past logs & violations if any. Tap on a log you would like to view or edit.

Graph Grid
Similar to paper logs, view your hours or service on the graph grid.

Statuses/Events
Tap on a specific status in the events section to view location and notes.

Edit/Insert Status
Press on “Pencil” to edit or “+” to insert a past duty status.

Certify Log
Tap “Certify” and sign your log when your shift ends.

www.gurfateh.net
GURFATEH ELD - Electronic Logging Device
Add DVIR
Tap "+" to add pre-trip or post-trip inspection report

Defects
Select defects (if any) from the list and sign DVIR

Correct Defects
Notify mechanic if defects need to be corrected

DVIRs History
Review past DVIRs to prevents compliance errors

Edit DVIR
Tap "…" button to edit DVIR and to fix any errors

Review last DVIR
Tap on DVIR to review and to confirm the issues have been resolved

DVIRs
Paper-free DVIRs save time for drivers
Easy to Use & to Navigate

Driver-friendly ELD Logbook interface

Easy-to-Navigate & Simple Menu

Tap “Start Inspection” for DOT Mode

View HOS Rules and Exceptions
