## 3. Login to Cloud ELD App

Log in with the credentials provided by your motor carrier.

## 4. Connect your mobile device to CLOUD ELD app

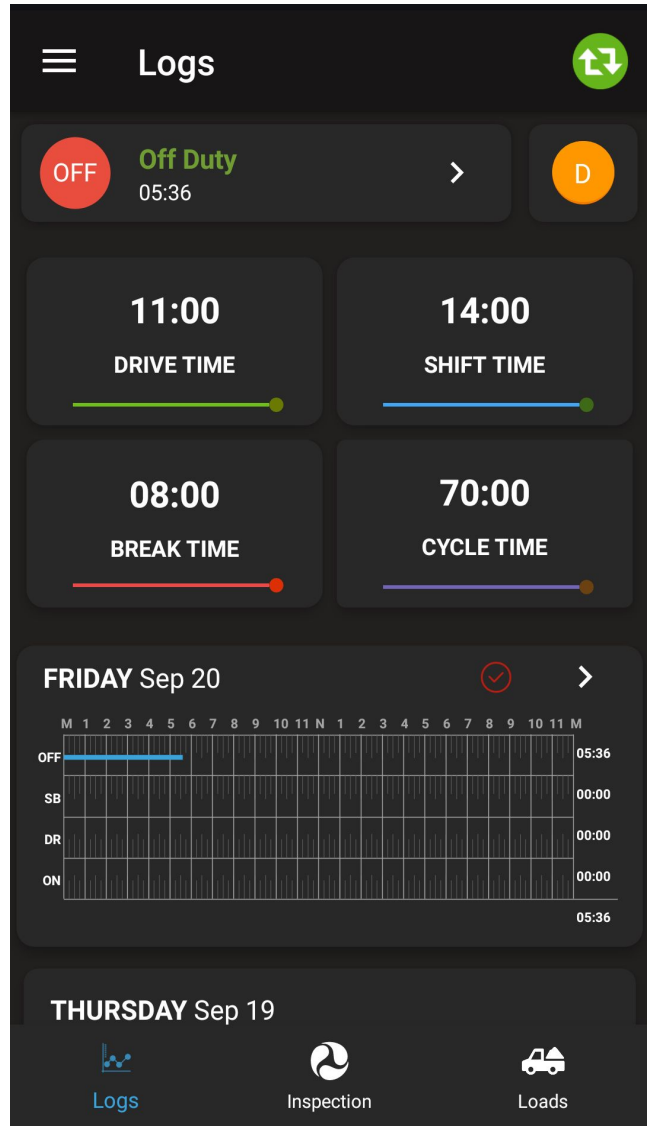

On the main logs screen, Tap on the vehicle connection status icon on the top right to connect with the vehicle's ELD

# Connect your Mobile device to the CLOUD ELD app

Your device will be automatically attempt to connect to the Vehicle's ELD using bluetooth

A green icon will appear at the top right of the main logs screen to indicate a successful connection

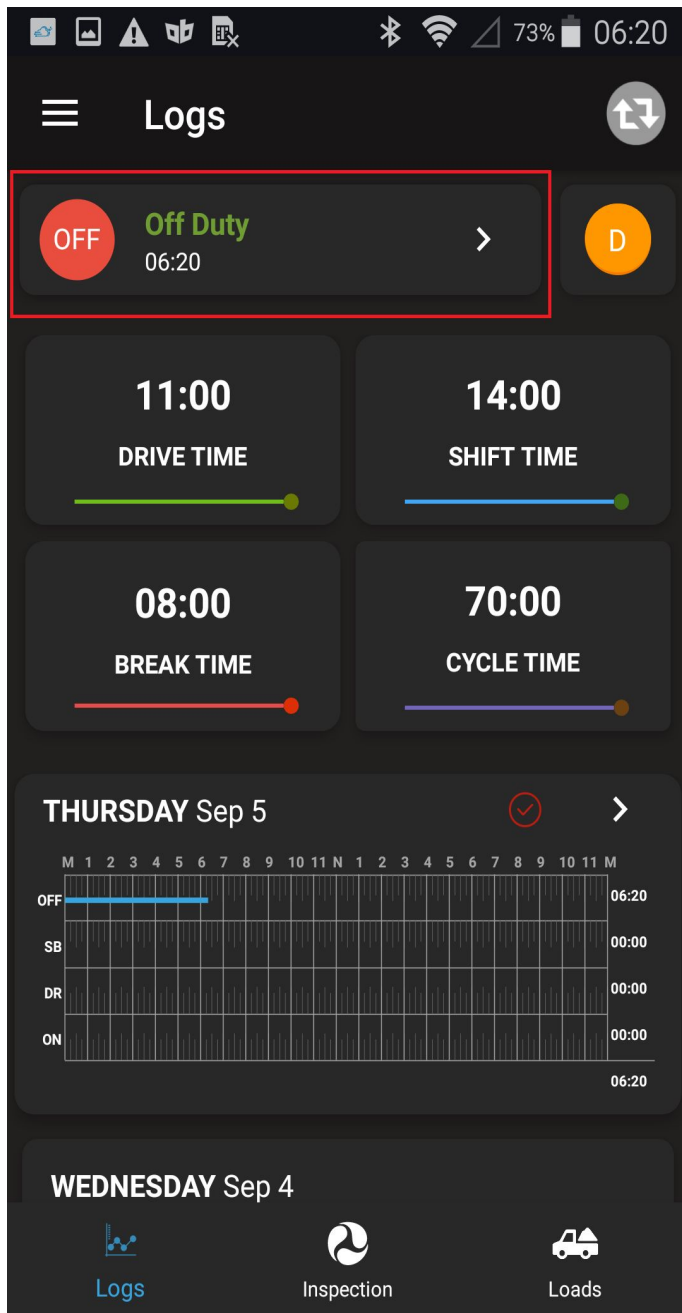

# 5. Home Screen

Home screen shows current duty status in the main circle and next break, driver time, shift time and total cycle time left.

The screenshot displays the 'Logs' application interface. At the top, there is a menu icon, the title 'Logs', and a refresh icon. Below this, the current status is shown as 'OFF' in a red circle, with 'Off Duty' in green text and '06:20' below it. To the right is a yellow circle with the letter 'D'. The main area features four large cards: '11:00 DRIVE TIME' with a green progress bar, '14:00 SHIFT TIME' with a blue progress bar, '08:00 BREAK TIME' with a red progress bar, and '70:00 CYCLE TIME' with a purple progress bar. Below these is a section for 'THURSDAY Sep 5' with a checkmark icon and a right arrow. This section contains a grid with columns for days of the week (M, T, W, T, F, S, S, M, T, W, T, F, S, S, M) and rows for status: OFF, SB, DR, and ON. The 'OFF' row shows a blue bar from the start of the day to approximately 06:20. The 'ON' row shows a blue bar from approximately 06:20 to 06:20. The 'DR' and 'SB' rows are empty. At the bottom, there is a section for 'WEDNESDAY Sep 4' with three icons: 'Logs' (line graph), 'Inspection' (circular arrow), and 'Loads' (truck icon).

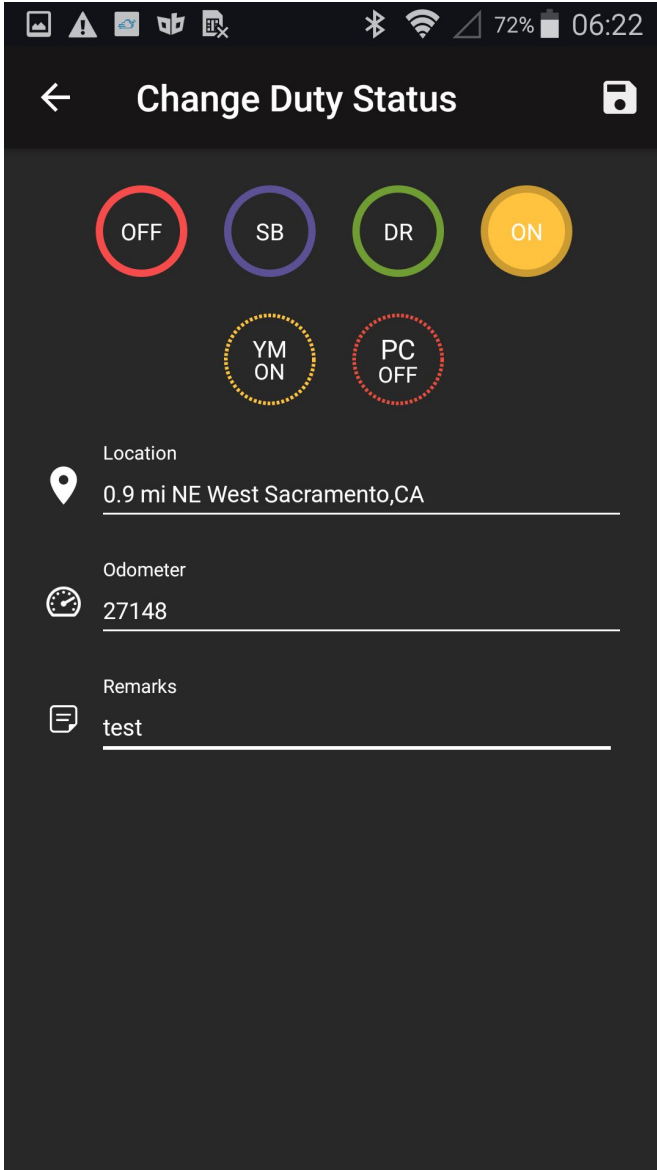

## 6. Change Duty Status

To change duty Status, Tap on the current status in home screen which is highlighted in red color.

Tap the new duty status that you want. The Home screen appears with the new duty status that you selected.

## 7. Personal Conveyance Status

This is a special driving category that might be provided by your carrier. This duty status counts as Off Duty

## 8. Yard Moves Status

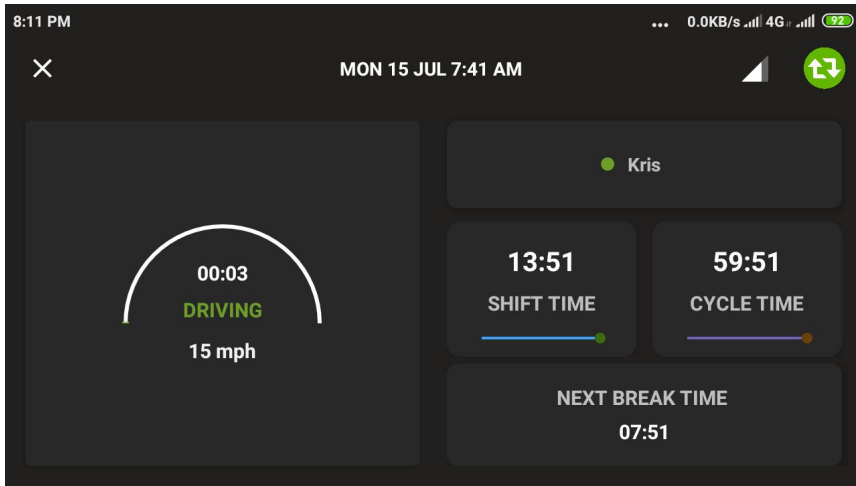

This is a special driving category that might be provided by your carrier for moving material around a yard or via private driveways.

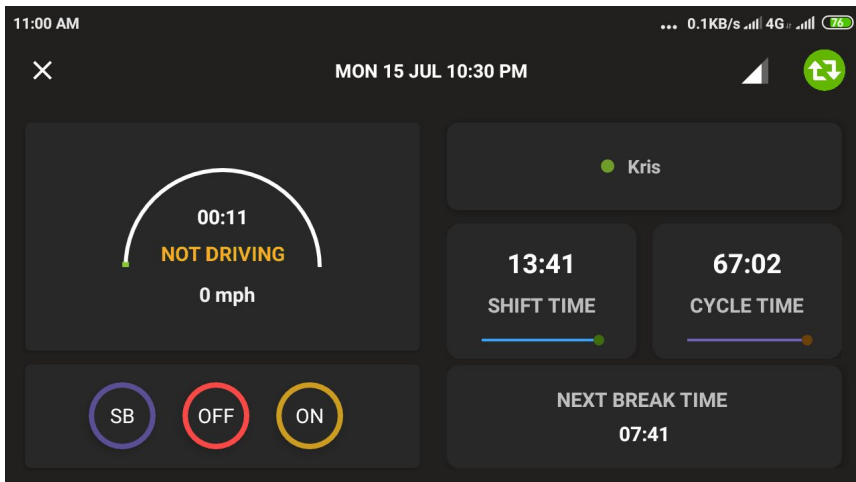

## 9. Drive Time Mode

When the vehicle is moving more than 5 mph, the duty status automatically changes to Drive Mode.

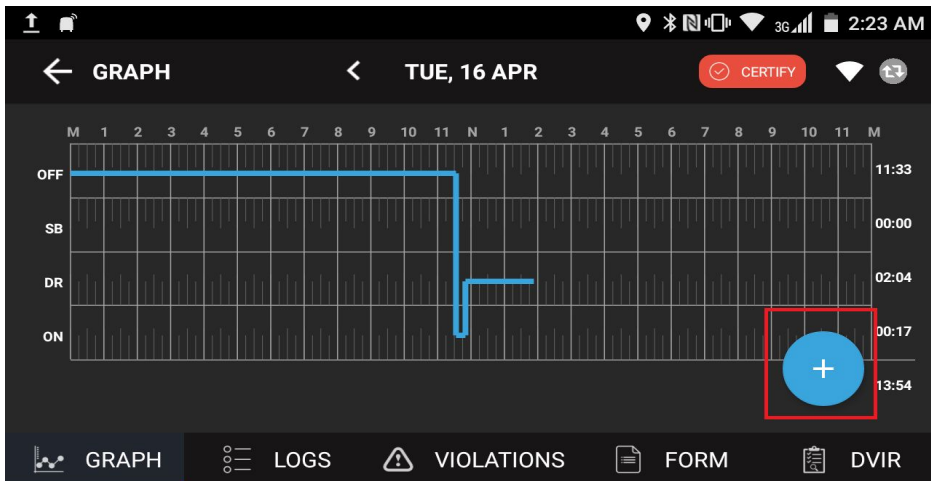

When the vehicle stops, you will get following option to change the duty status.

# 10. Insert Driver's Duty Status

Click on this Icon  in Home screen and in Graph screen, Click on + Icon on the bottom which is highlighted in red color to insert duty state

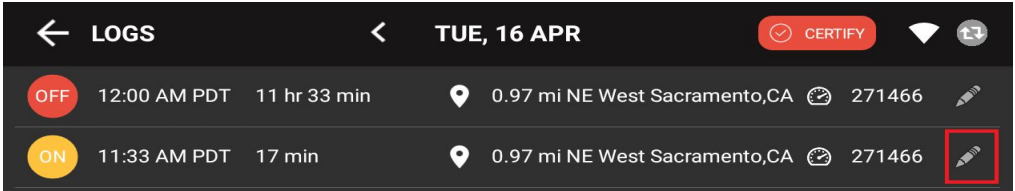

In the following screen select the status and enter Start & End Time and Remarks information.

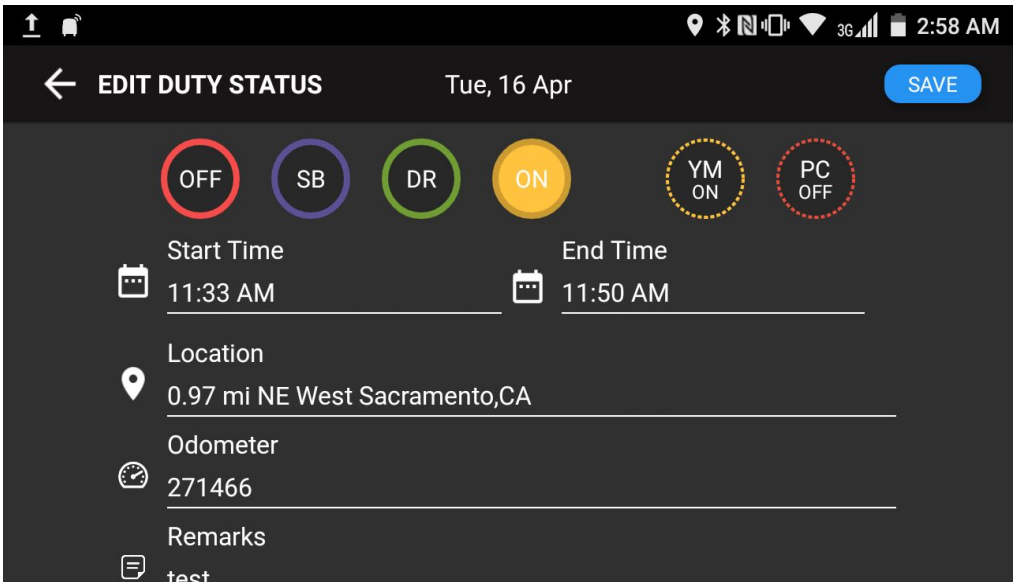

The screenshot shows the 'INSERT DUTY STATUS' form for Tuesday, April 16. The top status bar includes navigation arrows, the date, and a 'SAVE' button highlighted with a red box. Below the button are six status options: OFF (red circle), SB (purple circle), DR (green circle), ON (yellow circle), YM ON (yellow dashed circle), and PC OFF (red dashed circle). The 'OFF' status is selected. The form also includes fields for Start Time (01:20 PM), End Time (01:30 PM), Location (0.9 mi NE west Sacramento, CA), Odometer (271468), and Remarks (test).

On the Logs screen, click on the edit icon on driver's duty status record.

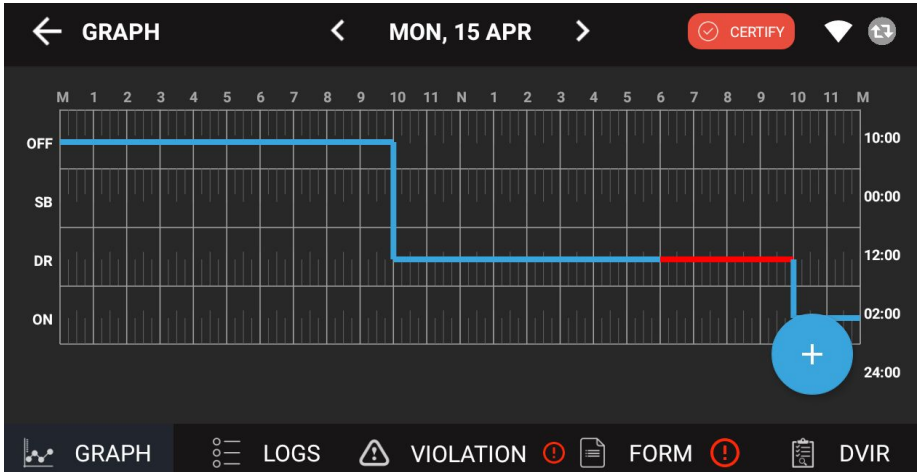

On the edit duty status screen, you can edit start, end time, location, and remarks..

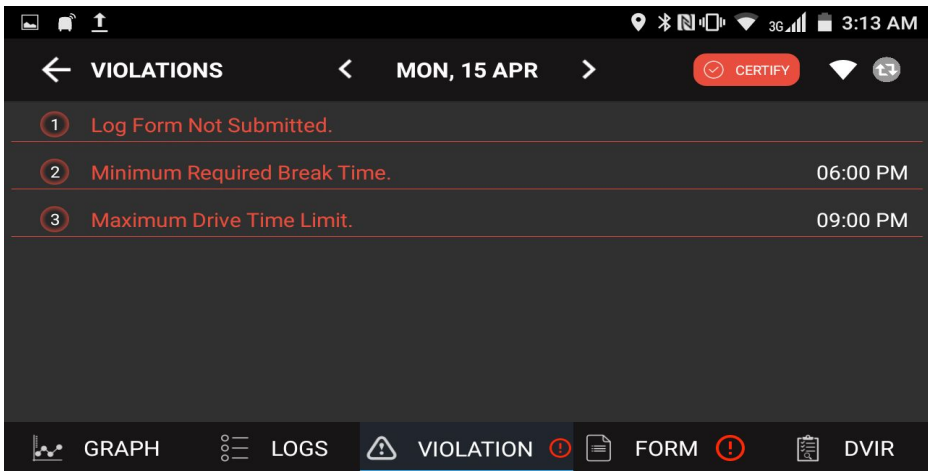

In Graph screen if any violations will show those HOS in red color.

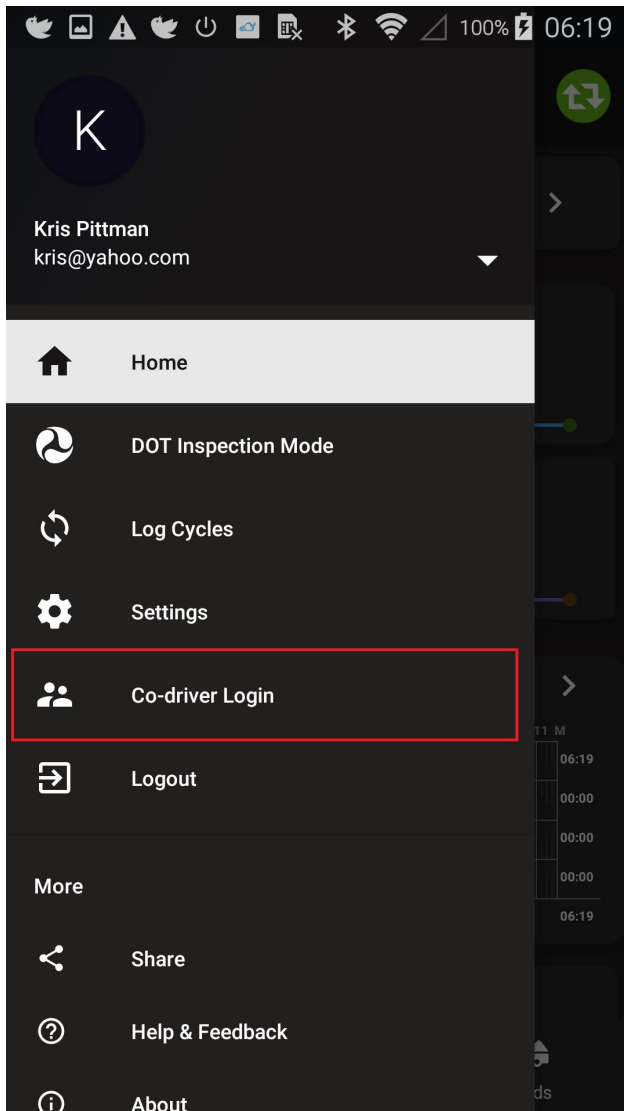

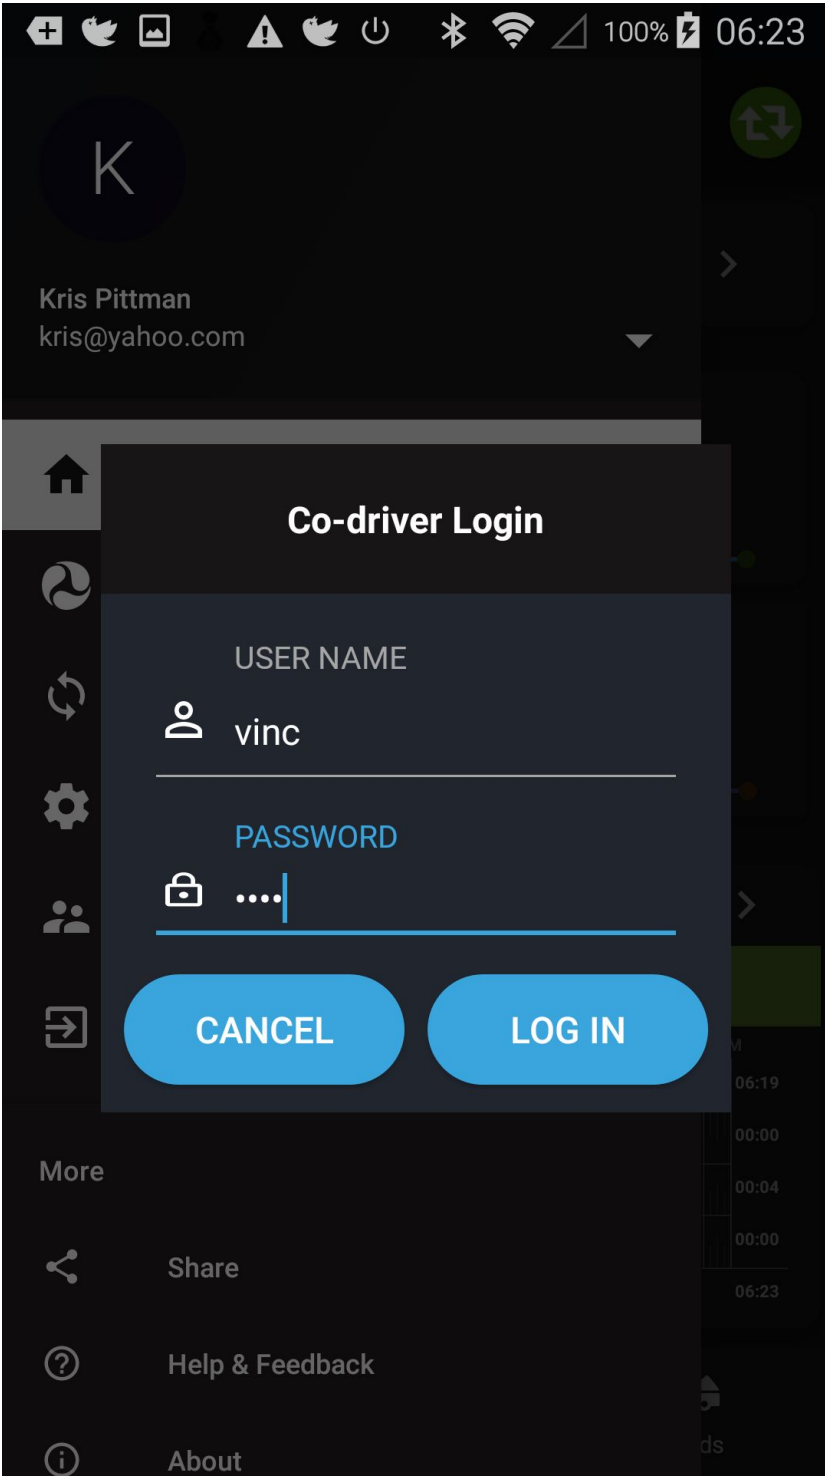

Violation screen will show list of violations for the specific 24 hours period.

GRAPH    LOGS    VIOLATION    **FORM**    DVIR

Click on DVIR Icon on the E Log screen, it will allow you to create Driver Vehicle Inspection Report.

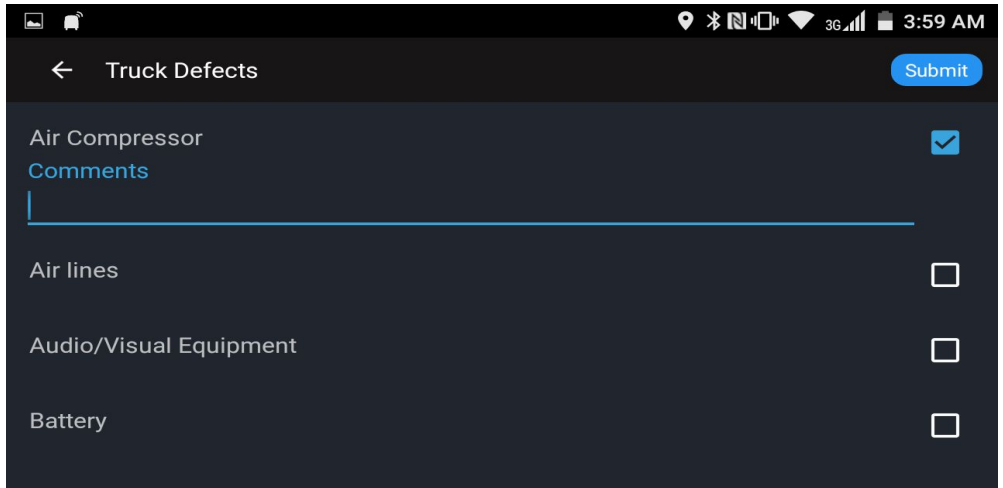

Fill out the following information in General with Inspection Type , Vehicle Tabs and Signature :

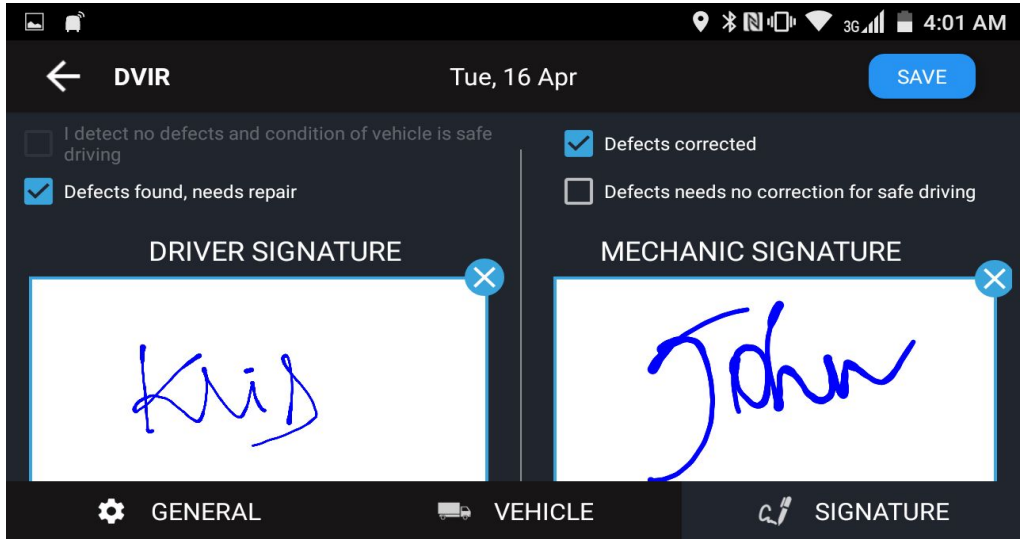

The screenshot shows a mobile application interface for creating a DVIR report. At the top, there is a navigation bar with a back arrow, the title "DVIR", the date "Wed, 10 Apr", and a "SAVE" button. Below the navigation bar, the form is divided into two columns. The left column is titled "Inspection Type" and contains three radio button options: "PRE TRIP" (which is selected), "POST TRIP", and "NONE". The right column contains three text input fields: "Time" with the value "08:08 AM", "Carrier" with the value "SSP Carrier Inc", and "Location" with the value "0.9mi NE West Sacramento,CA". At the bottom of the screen, there is a tabbed interface with three tabs: "GENERAL" (selected), "VEHICLE", and "SIGNATURE".

Inspection Type	Time
<input checked="" type="checkbox"/> PRE TRIP	08:08 AM
<input type="checkbox"/> POST TRIP	Carrier
<input type="checkbox"/> NONE	SSP Carrier Inc
	Location
	0.9mi NE West Sacramento,CA

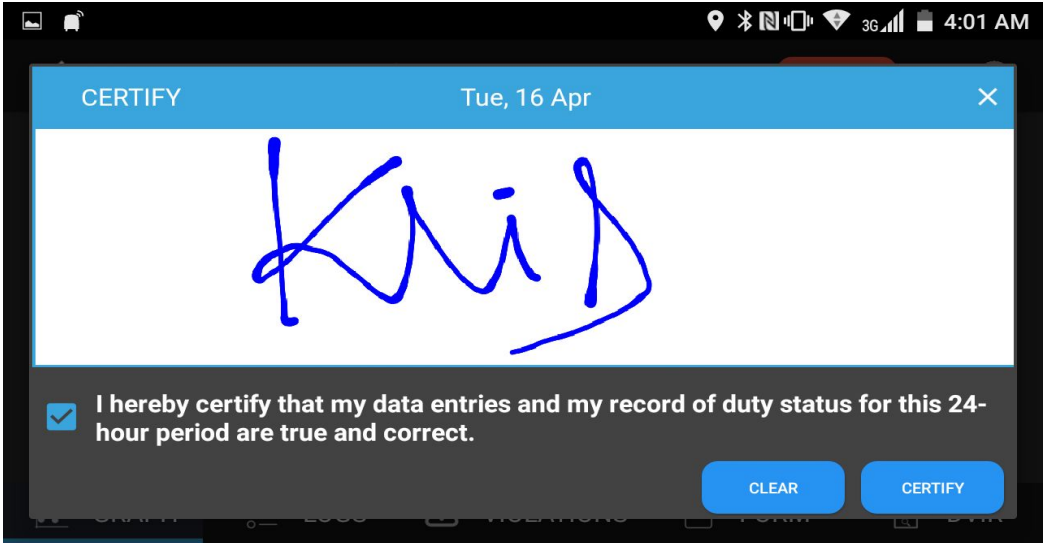

If any truck / trailer defect enter under "Vehicle" tab

On Signature tab, electronically sign the DVIR Record.

Click on Certify icon to certify electronically all information entered is correct and true.

# 19. DOT Inspection Mode

Click on the menu icon on the top left and select DOT Inspection mode menu.

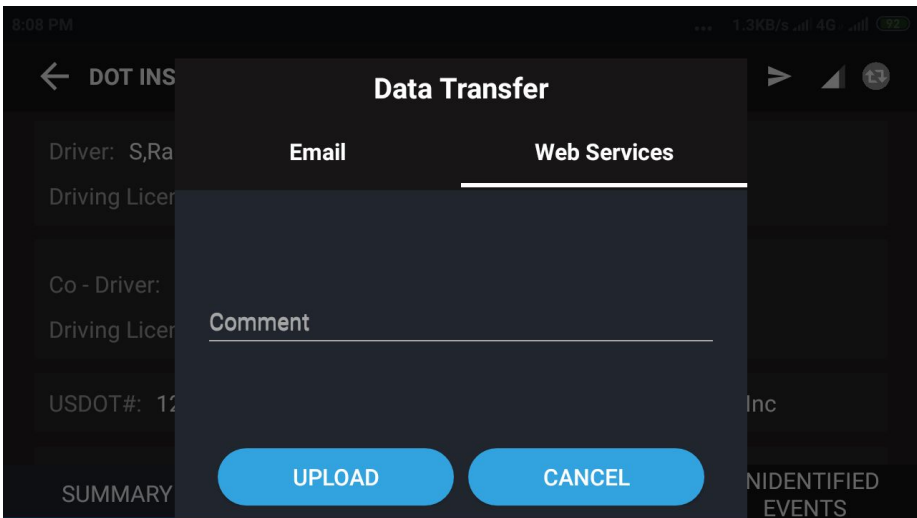

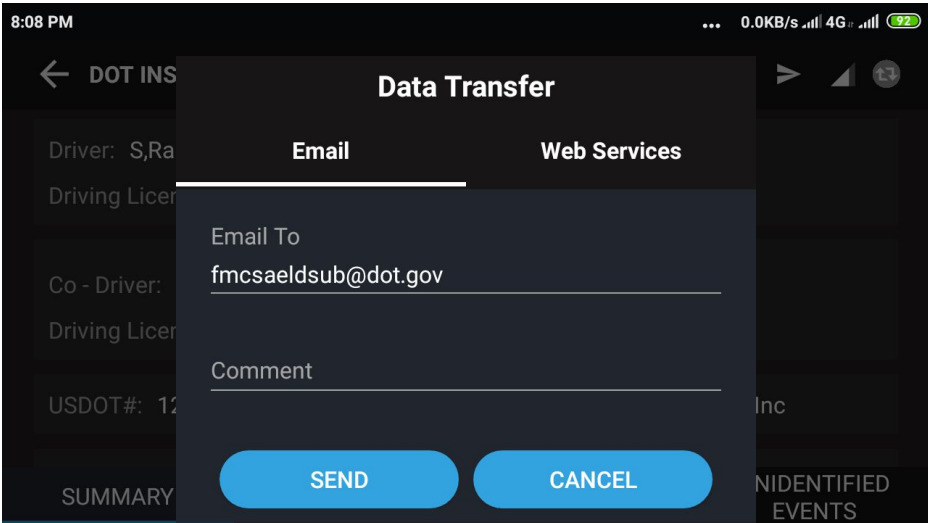

The screenshot shows the 'DOT INSPECTION' summary screen for Wednesday, April 10th. The top navigation bar includes a back arrow, the title 'DOT INSPECTION', the date 'WED, 10 APR', and icons for menu, home, and search. The main content area is divided into three sections: Driver information (Pittman, Kris; ID: kris; License: AL), Co-Driver information (Hernandez, Vincent; ID: vinc; License: AK), and Vehicle information (USDOT#: 123; Carrier Name: SSP Carrier Inc). At the bottom, there are four tabs: 'SUMMARY' (selected), 'GRAPH', 'EVENTS', and 'UNIDENTIFIED EVENTS'.

The screenshot shows the 'DOT INSPECTION' graph screen for Monday, April 1st. The top navigation bar includes a back arrow, the title 'DOT INSPECTION', the date 'MON, 1 APR', and icons for menu, home, and search. The main content area is a graph showing the driver's status over time. The x-axis represents the day of the week (M 1-11, N, M) and the y-axis represents the status (OFF, SB, DR, ON). A blue line indicates the driver's status, starting at 'OFF' from 09:56, switching to 'DR' at 00:03, and returning to 'OFF' at 11:02. At the bottom, there are four tabs: 'SUMMARY', 'GRAPH' (selected), 'EVENTS', and 'UNIDENTIFIED EVENTS'.

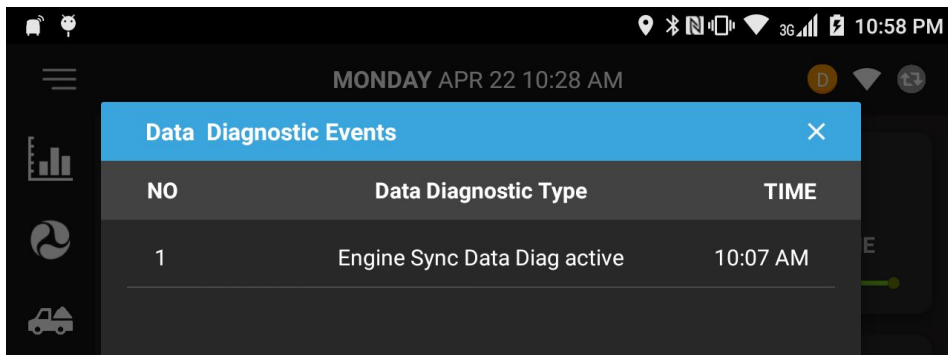

Click on  icon in DOT Inspection screen on the top right corner to send the output file through email or web services.
