Carrier Admin Panel (CAP)
Overview Of CAP
**Carrier Admin Panel (CAP) of TruLogELD**

The TruLogELD application is a complete package: a beautifully rendered product at a sensible price. Obviously, a labor of knowledge and enormous creativity. Its extensive and easy to use Carrier Admin Panel (CAP) is a solution made for Carrier companies to prevent them from unwanted citations and penalties.

CAP also helps Carrier company owners or individual drivers to efficiently manage the TrulogELD mobile app accounts of their drivers and mechanics.

**A Web Based Solution**

The Carrier Admin Panel of the TruLogELD application is a web-based solution, which can be accessed at [www.trulogeld.com](http://www.trulogeld.com).

**Items Provided by TruLogELD**

TruLogELD is our app built by Drivers for Drivers. It ensures compliance with the ELD mandate and provides information and tools to drivers and companies alike.

- Maintains your regulatory required documents accurately
- Captures important filing deadlines
- Provides notifications of deficiencies
- Offers actionable steps to maintain a compliant DOT number
- Decreases the possibility of fines, saves time and reduces stress

**Support**

TruLogELD support is available (24 x 7).

**CONTACT INFORMATION**

Phone: - 888.627.5499  
Email: - [MyELD@TruLogELD.com](mailto:MyELD@TruLogELD.com)
Basic Device Operation

How To Get Your TruLogELD

1. Open the TruLogeld.com.

TruLog BLE User’s Manual
for
iOS Devices using Bluetooth
OVERVIEW

iOS Device Overview
An iOS device is defined as any device manufactured by Apple® which uses iOS as its operating system. iPhone® and iPad® are registered trademarks of Apple Inc., registered Globally.

The TruLog BLE application is supported by mobile devices on iOS version 5 and higher and iPad 2 and higher.

TruLog BLE works on all Android devices which support both WiFi and cellular networks (data services such as 3G, 4G, LTE, etc.). A working internet connection is required.

Support
TruLog BLE support is available (24 x 7). Update TruLog BLE periodically through Google Play Store.

Contact Support
Phone: 888.627.5499
Email: MyELD@TruLogELD.com

Basic Device Operation
Bluetooth Connectivity
The iOS device will connect to the ELD via Bluetooth.

Connectivity Recommendations
An additional charging cable for the device is recommended. It is necessary to keep the device powered on. The TruLog BLE app can be minimized while performing other functions.

It is important to verify connection to a cellular or WiFi network.

ELD Device Basics
The ELD has an indicator light which indicates a connection between the TruLog BLE app and the ELD.

**STOP!**

It is important to read the User Manual before using the TruLog BLE app. The Manual is informative and will help one up the learning curve much faster than otherwise.

**Download the TruLog BLE Mobile App**

Search TruLog BLE from the AppStore and install the app.

**Launch the TruLog BLE App**

Tap the TruLog BLE app icon on the device’s main screen.
The TruLog ELD Mobile App

Sign In

1. Enter Username.
2. Enter Password.
3. Select Driver.
4. Tap Log In.
5. Verify having read the User Manual by checking the box.

Sign In

[Images of the sign-in screen with options for Username, Password, and Remember me.]
User Manual Verification

A signature verifies having read the User Manual upon first login.
Select Vehicle
Select Your Vehicle or No Vehicle.
Select Login Option

Select ELD or Time Card for short-haul exemption.
Previous DVIR

Review the Previous DVIR. Driver, Vehicle, Carrier, Carrier Address, Start & End Odometer, Start & End Location and Defects will be pre-populated and un-editable.

1. Verify the statement in the second checkbox by tapping the square.
2. Tap on the yellow signature box at the bottom of the screen to sign.
**Previous DVIR Signature**

Sign on the yellow portion certifying the vehicle is safe and not likely to break down. Tap the checkmark in the upper right corner to proceed.
Current DVIR

1. Input mileage.
2. Select location.
3. Enter DVIR defects.
4. Tap yellow signature pad to sign and click arrow in top right corner to proceed.
Select Location

If You are using the TruLog BLE App for the first time, the application will ask for the permission to access the vehicle’s location. In order to give the application the access to the current location, click “Allow”.

![Image of the TruLog BLE App requesting permission to access location]
**Body Vehicle Inspection**

1. Tap on the part of the vehicle that needs repair.
2. Tap on submit to save the inspection.
3. Tap on clear to remove marks.
Select Vehicle Inventory

1. Tap the box next to the item to indicate it is with the vehicle.
2. Tap the checkmark at the top right of the screen to proceed.
Log Form

1. Select the name of the Co-Driver, if applicable.
2. Select the trailer, if applicable.
3. Enter trip name or number.
4. Enter any remarks about the trip, if applicable.
5. Sign the form by tapping on the yellow box at the bottom of the page.
6. Tap the checkmark at the top right of the screen to proceed.

Edit Log Statuses

1. Tap Status. This will prompt a pop-up window with all four statuses.
2. Tap the Status you want to select.
3. Click on Done to save the changes.
4. Click on x icon on the top right corner of the pop-up to exit.
**Edit Log Remarks**

1. Tap Notes at the end of the row. This will prompt a small pop-up window.
2. Tap on the blank input box to open the keyboard.
3. Enter your Remarks.
4. Tap Done to save remarks.
5. Tap Cancel to exit the pop-up.
Inspection

To transmit logs to regulatory personnel:

1. Tap Menu.
2. Tap Inspection.
3. Choose Option
   a. View on Device
   b. Send Logs – enter email address

Question:-
May a driver use a computer, tablet or smartphone (that is not an Automatic On-Board Recording Device) to create, electronically sign, and store the record of duty status (RODS)?

Guidance:-
Yes. A driver may take manual duty-status entries to a computer, tablet or smartphone program that is used to generate the graph grid entries for the record of duty status (RODS) or log book, provided the electronically-generated display (if any) and output includes the minimum information required by 395.8 and is formatted in accordance with that section. The driver must sign the RODS (manually or electronically) at the end of each 24-hour period to certify that all required entries are true and correct.

FMCSA Guidance on Electronic Logs
Fuel Records

1. Tap Menu.
2. Tap Fuel Record.
3. Tap Add Fuel Entry.
4. Enter gallons, dollars and location, tap submit to save.
