## Get Started

### Installing the Automile Box

**Install the Automile Box** by simply plugging it into the diagnostic port socket (called OBD II) of your vehicle.

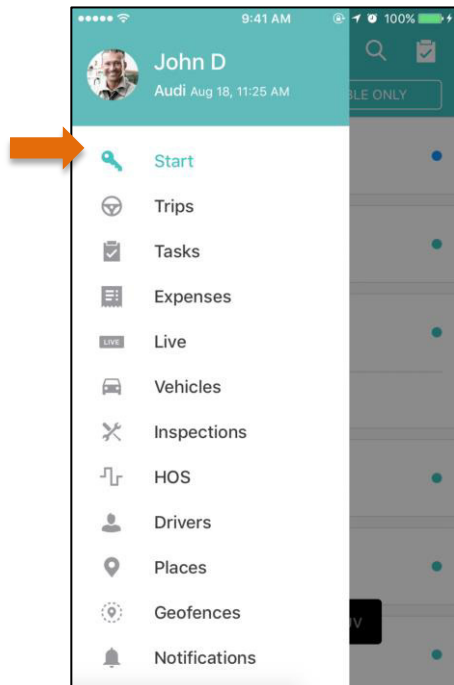

### Download Automile App on your Mobile Device & Sign in

- Simply search “Automile” from your preferred app store and download OR **send a text message with your first name to this number: +1 (201) 877-4260**. You’ll receive an SMS with a link to download the app.
- Use login credentials you received from Automile. If you did not receive this e-mail, please contact us at [support@automile.com](mailto:support@automile.com).
- You are ready to use the app!

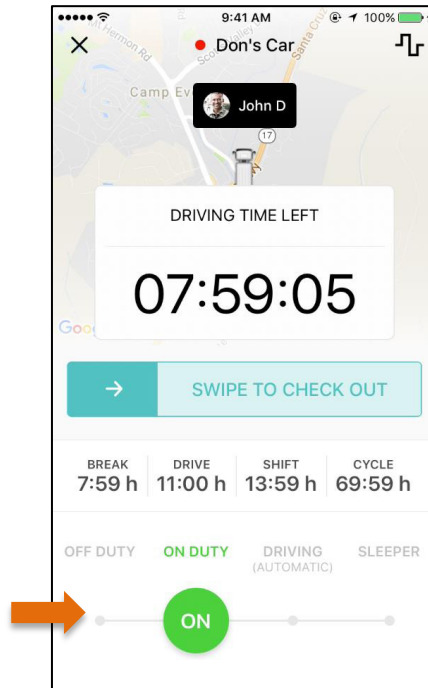

# Record HOS

## STEP 1

Click on Start in the navigation bar, select your vehicle, and check in.

## STEP 2

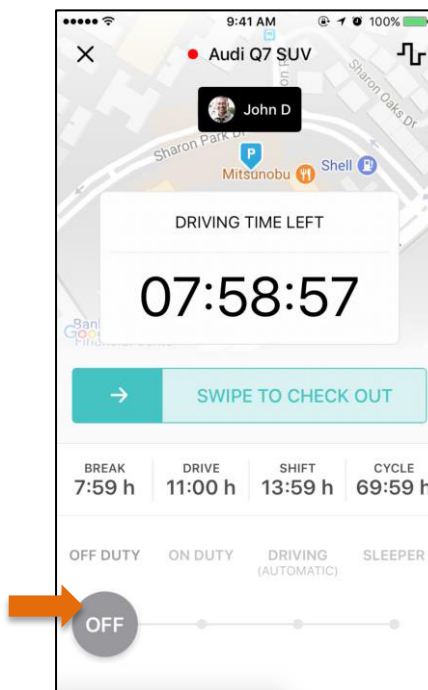

Tap CHECK IN for the clock to count down, and drag your slider to ON DUTY.

## STEP 3

When you start driving, the slider will automatically be in the DRIVING mode.

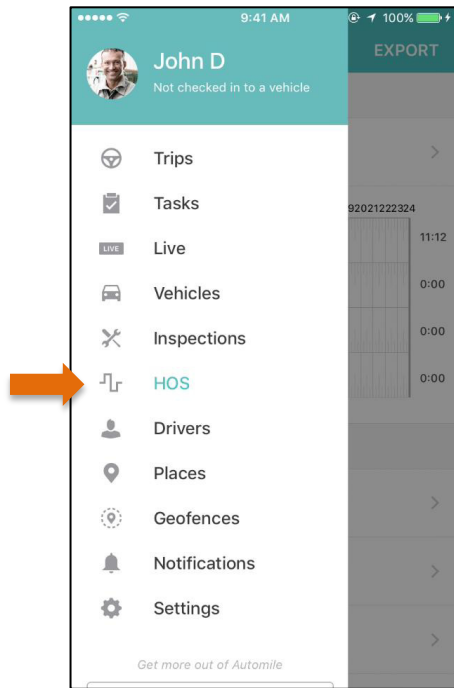

## STEP 4

The clock will stop counting when you drag the slider back to OFF DUTY.

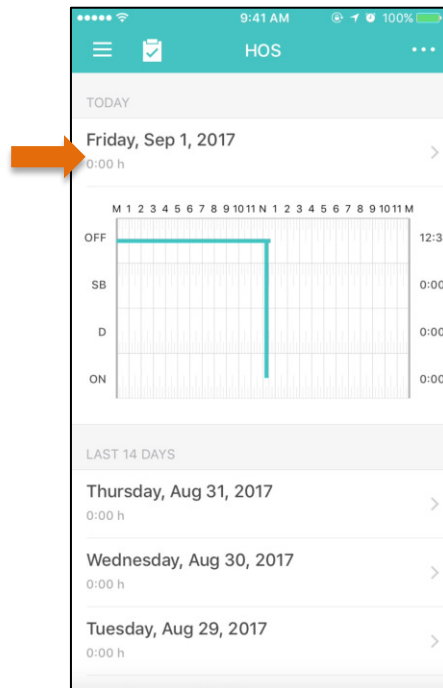

# View HOS

## STEP 1

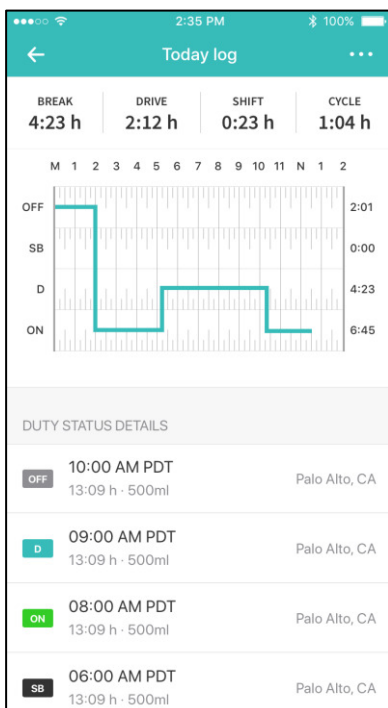

View your Hours of Service data by clicking on HOS on the left main navigation bar.

## STEP 2

On the HOS screen, select the day to view the HOS details.

## STEP 3

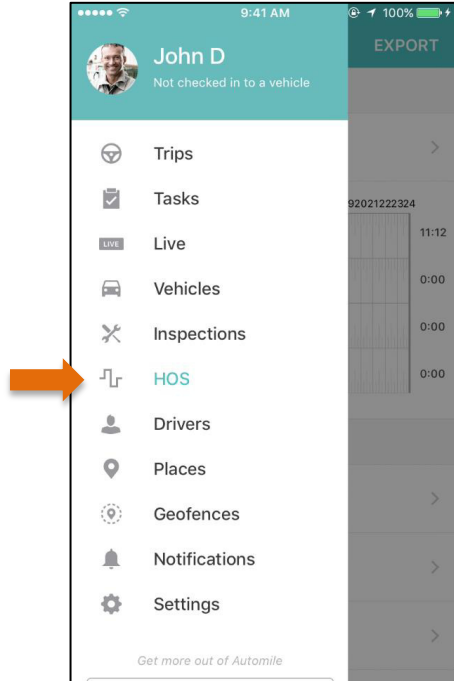

View the HOS data chart and duty status details.

# Edit HOS

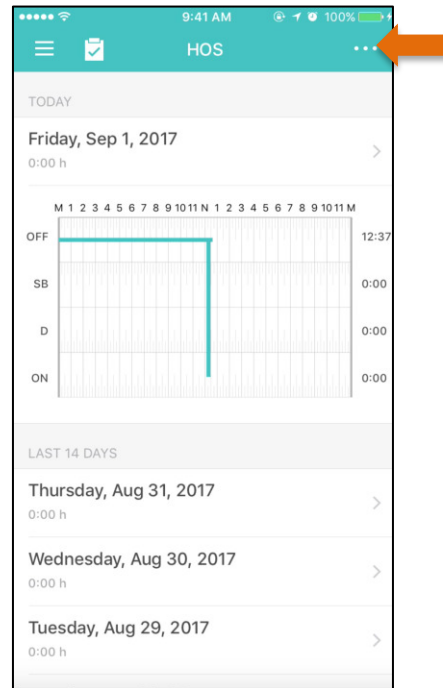

## 1. Change Your Duty Status

### STEP 1

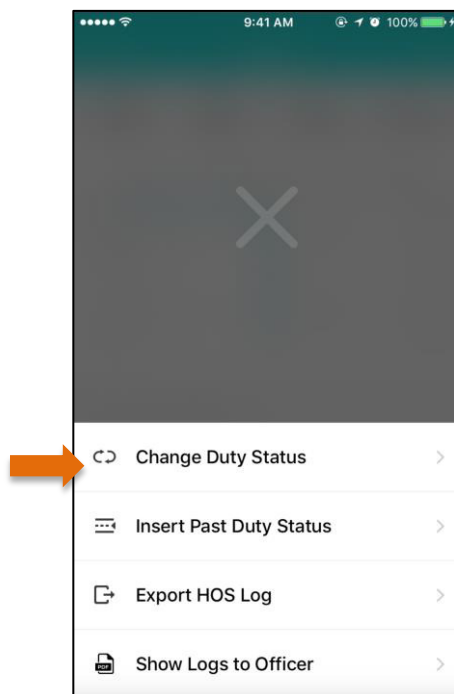

Clicking on HOS on the left main navigation bar.

### STEP 2

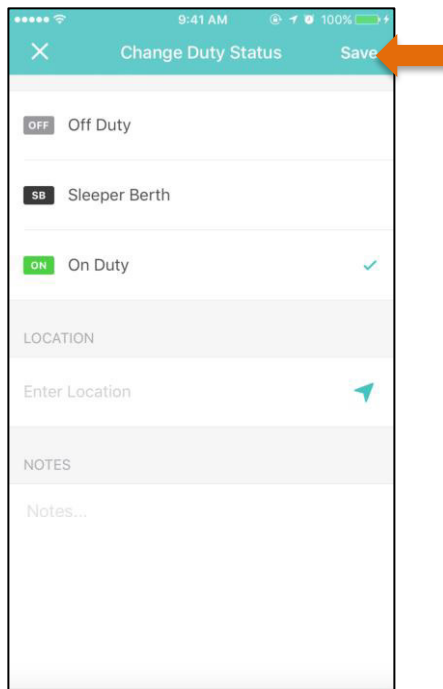

Select the current day and click on the top right dots icon.

### STEP 3

Select 'Change Duty Status'

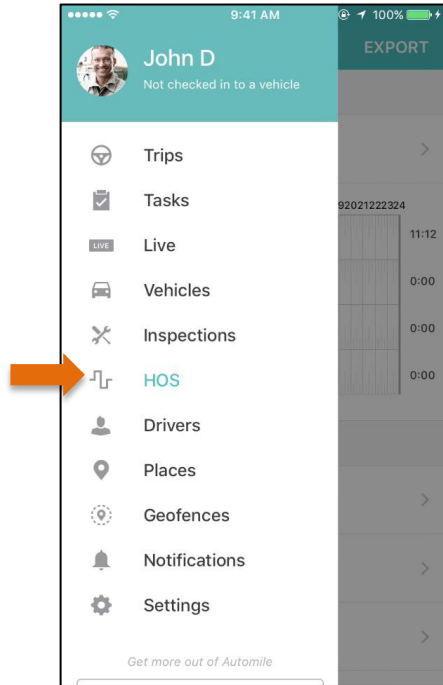

### STEP 4

Select the appropriate duty status, enter location, and notes. Tap on save.

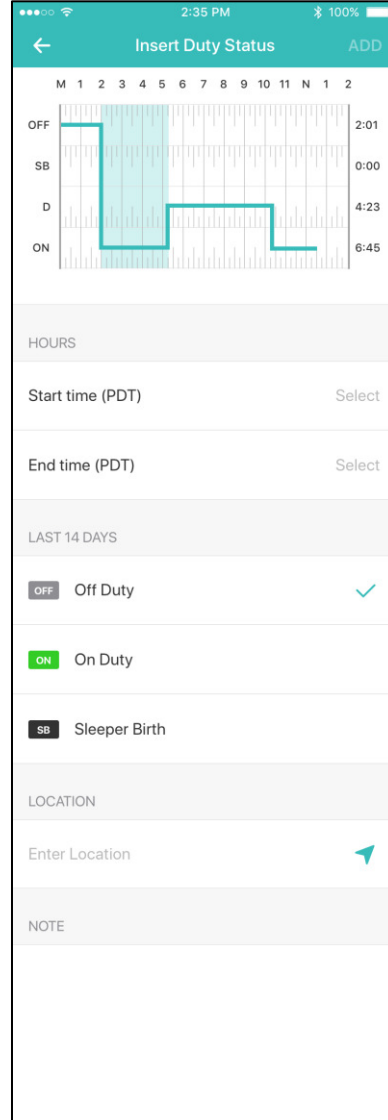

## 2. Insert A Past Duty Status

### STEP 1

Tap HOS on the left main navigation bar, and select a day from the LAST 14-DAYS.

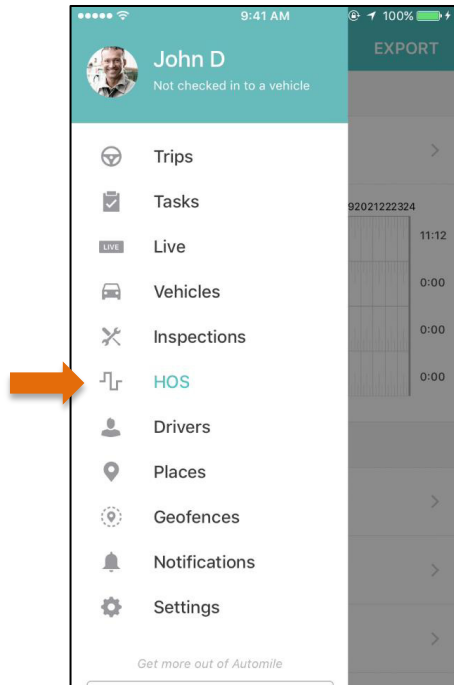

### STEP 2

Select the start and end Time, Status (Off Duty, Sleeper Berth, On Duty), enter location and notes, and click ADD.

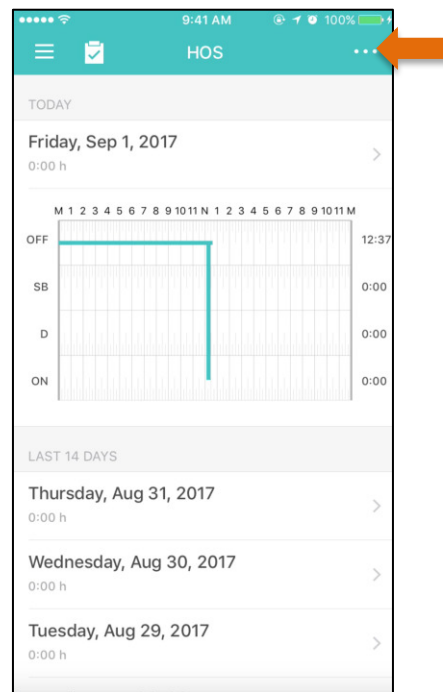

# Export HOS Log

## STEP 1

Clicking on HOS on the left main navigation bar.

## STEP 2

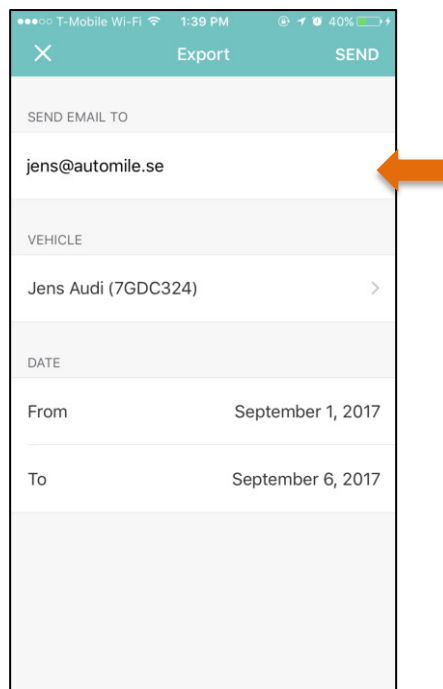

Select the current day and tap on the top right dots icon.

## STEP 3

Select Export HOS Log.

## STEP 4

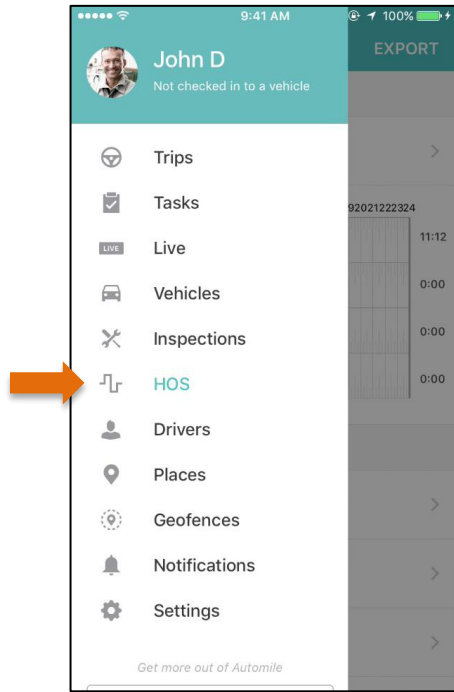

Enter the email address, select a vehicle and date range, and tap send.

**NOTE:** You can also export HOS logs for individual days by selecting a specific day on the HOS screen.

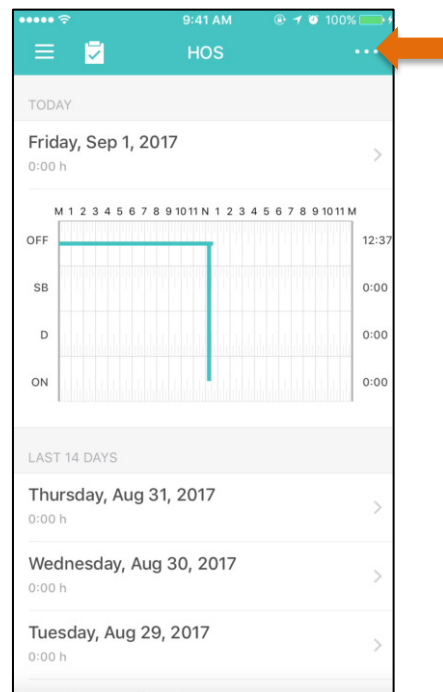

# Show Logs to Officer

## STEP 1

Clicking on HOS on the left main navigation bar.

## STEP 2

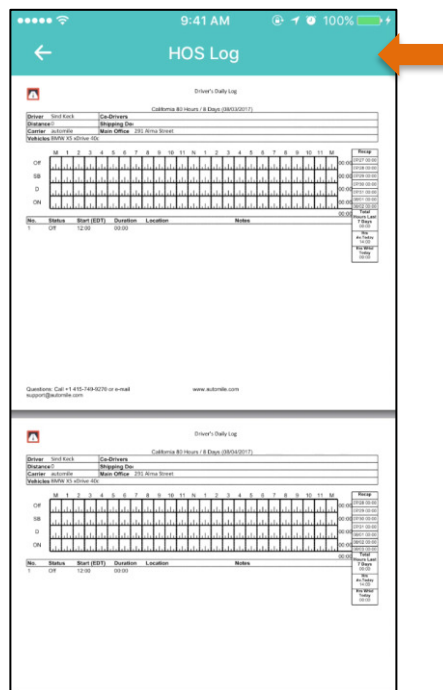

Tap on the top right dots icon.

## STEP 3

Select 'Show Logs to Officer'.

## STEP 4

View HOS log for up to 14-days.

**NOTE:** You can also show logs to officer for individual days by selecting a specific day on the HOS screen.

# Get Notified of Violations

## STEP 1

You will be notified before you have a violation that is going to occur.

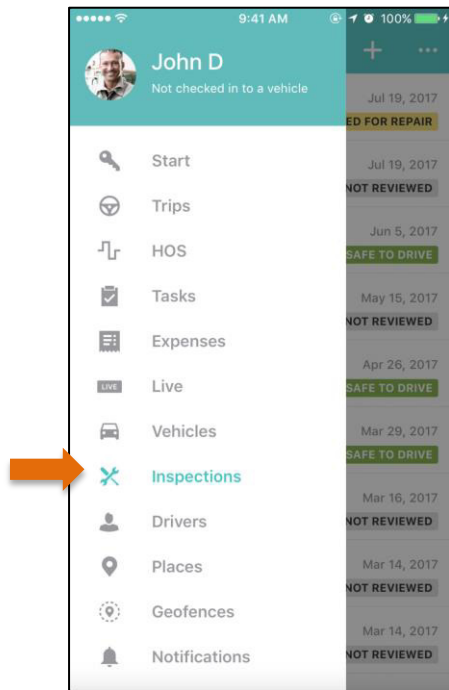

## STEP 2

You will also be notified each time you have a violation. For example, when it is time for you to take a break.

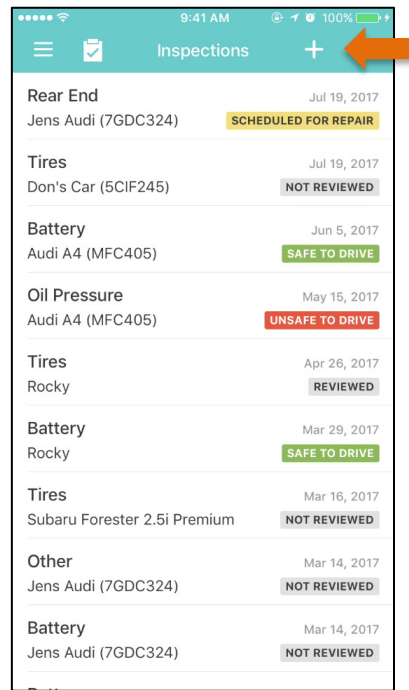

# Create a DVIR

## STEP 1

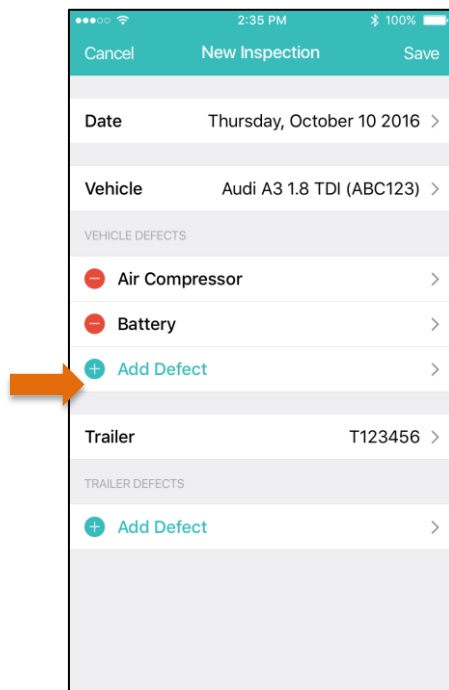

Select 'Inspections' from the left main navigation bar.

## STEP 2

Tap the "+" on the top right corner to create a new inspection.

## STEP 3

Add a defect, snap a picture of it under photos, and click save.
