## BATTERY HEALTH

It's used to check battery level

## FUEL LEVEL

It's used to check fuel level

## FIND MY VEHICLE

It's used to find the vehicle location in map with address

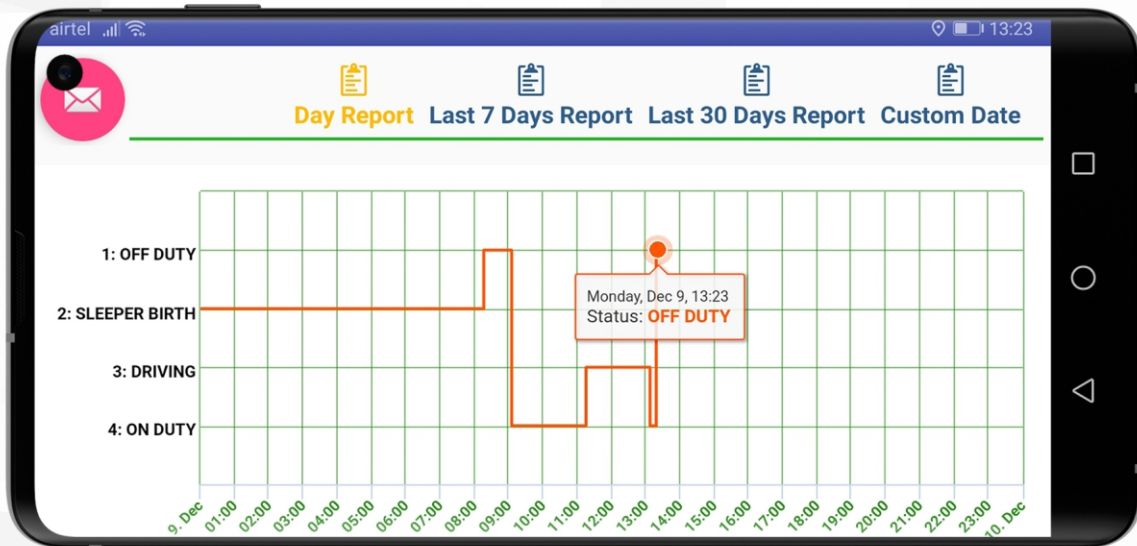

## ENGINE FAULTCODE

If you have a check engine light on your dashboard, this option works like a scanner to define engine fault codes and recommendations.

## 6. GRAPH & REPORTS

YOU CAN VIEW THIS BY PRESSING THE 'GRAPH' BUTTON OR SWIPING THE SCREEN TO RIGHT.

\* Once opened, by default, you will see the current today's log. You may also view past 7 days, 30 days or custom date range in the same view.

The screenshot displays a mobile application interface for signing a report. At the top, there is a 'SIGN HERE' header. Below the header, there is a statement: 'These Entries are True and Correct to the best of my Knowledge'. Below the statement, there are three buttons: 'CANCEL', 'CLEAR', and 'SAVE & SEND'. Below the buttons, there is a text input field containing 'test@gmail.com' and a signature line with a handwritten signature.

\* If you need to send a report out, click on the message icon on the top left corner and then enter the email address. You would also need to sign and self-certify your lungs. Once done press 'save and send'.
