RING ELD

ELD
Guide for Drivers

This guide provides information related to the ELD App. If you have any additional questions or need further assistance, please consult your fleet manager or refer to the customer support line.

GETTING STARTED

Downloading the ELD App

You can download the ELD App from the app distribution platform compatible with your mobile device. Search for the app by name and follow the on-screen instructions to download and install it.

Synchronizing the app with the ELD hardware

Follow these steps to synchronize the app and ELD hardware:
- Go to the list of available vehicles in the app.
- Select your vehicle from the list.
- Your phone or tablet will attempt to connect to the ELD hardware via Bluetooth.
- Wait for a green indicator to appear at the top right corner of your screen.
- Once the green indicator appears, you can start using the electronic logging system.

Verifying that the synchronization was successful

The green indicator at the top right corner of your screen indicates a successful synchronization between the app and the ELD hardware. This indicator confirms that your device is connected to the ELD device and ready to use the electronic logging system.

USING THE APP

Changing duty status

To change your duty status in the ELD App, tap the Status Circle on the main screen. Select the appropriate status from the list, such as Off Duty, Driving, On Duty, Sleeper, Yard Moves, or Personal Use. Tap the Update button to save the changes.

Logs certification

To certify your logs in the ELD App, go to the Logs section. Tap on the certification option or button and follow the prompts to provide your electronic signature. Any edits made to certified log will require recertification.
D	05:28 PM EDT	48m
OFF	06:36 PM EDT	19m

Editing HOS records

In the Logs section, tap on the specific duty status entry you wish to modify. Make the necessary changes, such as the duty status, location, or annotations, and save the updated record. Remember that the driving time captured by the device cannot be edited under any circumstances.

Past HOS records access

The Logs section within the app provides access to past HOS records. Navigate to the Logs screen from the menu and select the desired date to view the corresponding logs.

Sending logs from the ELD App

ELD App provides an option to send your logs electronically. Tap send option within the app and choose the desired transfer type.

HOS violations notifications

ELD App will automatically notify you of any potential HOS violations or upcoming violations. Pay attention to these notifications, which will alert you when you are approaching or have exceeded maximum allowable driving time, required rest breaks, or other HOS regulations.
