AWARENESS AND TRANSITION: GETTING READY FOR ELDS
Established technology needed to receive ELD data files from devices and send them to safety officials—all electronically

On December 18, 2017, FMCSA was ready

INITIAL ROLL OUT: ADOPTING ELDS
Supported industry adoption of new technology and continued to ensure ELD providers understood all requirements

Motor carriers and drivers had time to acclimate to ELDs

PHASED-IN COMPLIANCE: ENFORCING OUT-OF-SERVICE
Since CVSA Out-of-Service criteria went into effect, less than 1% (61,518) of all driver inspections (7,000,673) have resulted in the driver being cited for operating without a required ELD or grandfathered AOBRD

ELDs are working: Hours of Service violations have dropped significantly
