# ELD | ELECTRONIC LOGGING DEVICE

## ELD Update

FMCSA removed two ELDs from the list of registered Electronic Logging Devices (ELDs).

Motor carriers and drivers using BLUE STAR ELD and RELIABLE ELD devices have 60 days to replace them with compliant ELDs.

---

**On August 15, 2024, FMCSA removed the following ELDs from the list of registered ELDs due to the providers' failure to meet the minimum requirements established in 49 CFR part 395, subpart B, appendix A.**

ELD Name	Model Number	ELD Identifier	ELD Provider
BLUE STAR ELD	BRS	BRS153	BLUE STAR ELD INC
RELIABLE ELD	RRS	RRS121	Reliable ELD Inc

These ELDs now appear on FMCSA's Revoked Devices list.

Motor carriers and drivers who use the ELDs listed above must take the following actions:

1. Discontinue using the revoked ELDs and revert to paper logs or logging software to record required hours of service data.
2. Replace the revoked ELDs with compliant ELDs from the [Registered Devices list](#) before October 14, 2024.

**Motor carriers have up to 60 days to replace the revoked ELDs with compliant ELDs.**

Motor carriers and drivers who continue to use the revoked ELDs listed above on or after **October 14, 2024**, will be in violation of 49 CFR 395.8(a)(1)—“No record of duty status” and drivers will be placed out-of-service in accordance with the [Commercial Vehicle Safety Alliance \(CVSA\) OOS Criteria](#).

If the ELD providers correct all identified deficiencies for their devices, FMCSA will place the ELDs back on the [Registered Devices list](#) and inform the industry and the field of the update. However, FMCSA strongly encourages

motor carriers to take the actions listed above now to avoid compliance issues in the event that these deficiencies are not addressed by the ELD providers.
